

EVENING NEWS REVIEW.

16TH YEAR. NO. 254.

EAST LIVERPOOL, O., MONDAY, APRIL 8, 1901.

TWO CENTS

THE SCREEN LAW WILL BE FOUGHT

It Goes to Effect Tonight and
Liquor Dealers Have Agreed
to Test It.

THEY WILL STAND TOGETHER

Three Saloonkeepers Agree to Have
Various Points of the Ordinance
Tested at Their Respective Places
of Business—Much Interest.

At 9 o'clock tonight Dr. Marshall's
new screen ordinance goes into effect,
and all preparations have been made
by the liquor dealers to meet the
obstacle.

Much speculation has been rife as
to the constitutionality of the law,
and the general opinion of the legal
fraternity seems to be that it will not
hold water.

It is argued that no law nor ordi-
nance can compel the owner of a
building to change the architecture of
the place to comply with the ideas of
some fanciful legislator.

The executive board of the local
liquor dealers association, composed
of Messrs. Guthrie, Devine and Walsh,
have decided to test the law and the
ball will be started tonight. So far
as the city is concerned the affair
will be simply a matter of form, as the
cases will be at once carried to a higher
court.

Mr. Guthrie's place in Diamond alley
is especially well adapted for a test
of the section with reference to the
wine rooms and he has volunteered
to try conclusions with the authorities
on that point. Devine will stand the
test on the matter of one door, while
Mr. Walsh will look after the screen
feature.

BAD STREET CAR SERVICE

ON THE EAST LIVERPOOL LINE
YESTERDAY.

No Less Than Eight Different Cars
Were On the Track at
Various Points.

The employees of the East Liverpool
street railway have had their own
troubles since Saturday evening and
no less than five accidents have oc-
curred.

At 10:30 Saturday night car No. 11,
Motorman Hendershot, left the track
at the foot of Franklin street and ran
to the curb above the run. There
was a number of passengers on the
car, bound for Wellsville, and they
were all more or less shaken up. The
car was entirely clear of the tracks
and traffic was not delayed. The
wreck crew was summoned and the
car replaced. The accident occurred
at the identical spot that Motorman
Hamilton lost his life several years
ago.

Car No. 16, Motorman Elsie Ketch-
um, jumped the track at Kountz's
corner Sunday evening and the 64 pas-
sengers were compelled to wade about
in the mud, while a transfer was
made.

Number 15, Motorman Lebold, went
off the track at 7:30 last night, and
no less than 100 people were lined up
along the fence for more than an
hour, and when they did get started
the service was very bad.

It has been demonstrated within the
past few weeks that the cars recently
purchased by the company are not suit-
able for this line. The flanges of the
wheels are either too small or the
car is too large for a single track. A
great majority of the accidents that
have happened in the last month have
been to the new cars.

Street car No. 7 seems to be the
Jonah of the East Liverpool line.

The car has been off the track at
every dangerous point on the road,
and apparently has an especial dis-
like for the arrangement of the tracks
at the old Sixth street switch. In the
probable 15 trips the car makes in a
day it goes off the track at that point
several times.

HER LAST MESSAGE.

GIRL SAID TO HAVE SENT IT TO
HER LOVER.

Broken Promise Led Her to Take
Laudanum With Result Not
Yet Known.

"If you want to see me alive come
right away."

These were the words of a tele-
phone message sent by Miss Belle
Johnson, who lives about two miles
east of Chester, to Clyde Figley, of
East Liverpool, at about 11 o'clock.

It is said the girl had taken a dose
of laudanum and intended this to be
her last message to her sweetheart.
Miss Johnson is about 18 years of
age. Her father is dead and she has
been living with a family by the name
of Cornell. It is said that her life has
been a very unhappy one.

It is also said that the young man
was to call on the young lady last
night and failed to keep his promise.
She became despondent and took
poison, after which she wrote the note
and dispatched it with a special mes-
senger to the nearest 'phone. The
young man received it with a laugh
and said he guessed "she must be
off." The bearer of the note could not
state whether a doctor had been
called and did not know the amount
of laudanum the girl had taken. It
was impossible to learn whether the
young man answered the message,
and whether the girl had really at-
tempted suicide or was merely trying
to scare her lover.

BEHIND BARS AGAIN.

JESSE M'GREGOR VIOLATES HIS
PAROLE AND GOES TO JAIL.

The Murderer Arrested at Wellsville
And Taken to Lisbon By
the Sheriff.

Jesse McGregor, who, about seven
years ago, murdered Lizzie Ewing
and received a life sentence and was
afterward paroled, is again behind
the bars. He was arrested in Well-
sville and Sheriff Noragon took him
to Lisbon jail this morning.

Drunkenness, which was a violation
of his parole, was one of the charges
leading to his arrest. He had been
out of prison about a year and a half.
He will have a hearing before Judge
Boone next Friday morning.

BLOODY FIGHT

IN WHICH WELLSVILLE'S EX-PO-
LICE CHIEF IS WORSTED.

An Exciting Contest Which Led to the
Arrest of the Man Who
Whipped.

In Wellsville on Saturday evening
there was an exciting fight between
ex-Chief of Police James Madden, and
Edward Eckler, son of Captain Eckler.
The contest was bloody and Madden
came out of it with a badly damaged
countenance and bodily bruises. Eck-
ler was arrested, though it is claimed
Madden was the aggressor.

Captain Eckler is indignant and
wants to know why his son was ar-
rested and the other man not Hearing
tomorrow.

HEARING APRIL 18.

That Is the Date Set for Arguments
on the Motion in the
Metzger Case.

Lisbon, April 8.—(Special.)—Judge
Boone today decided to hear the argu-
ments for a new trial in the Metzger
case on April 18. He refused to make
to make an order removing Metzger
from office pending the argument on
the motion.

DECISION RESERVED.

Justice Rose Deliberating on the
Surles-Page Case.

A motion was argued to dismiss the
attachment case of W. H. Surles ver-
sus Captain J. H. Page this morning
in the court of Justice Rose. The
squire reserved his decision and the
attorneys will submit briefs.

PAINTERS GET WHAT THEY ASKED

The Strike Is Settled and Their
Wages Will Be \$2.55 Per
Day Hereafter.

THE CONTRACTORS ALL AGREE

End of the First of a Series of Strikes
in the Building Trades—Much Di-
plomacy Has Been Exercised on
Each Side.

The troubles between the boss pain-
ters and their employes have been am-
icably adjusted, and to the perfect sat-
isfaction of all concerned.

At the conference on Friday night
the contractors presented a proposi-
tion which was in substance that, pro-
vided the men would include a clause
in their scale which would prohibit
any boss painter from bidding on pa-
per hanging for less than 15 cents a
bolt, they would agree to pay a uni-
form price of \$2.55 per day, which to
all intents and purposes would mean
street car fare one way.

There was some doubt in the minds
of the men as to whether their con-
stitution would permit them to exert
sufficient authority to dictate to the
employers what price they should
adopt for any certain class of work.
However, they decided to return to
their old jobs pending an answer from
their national headquarters in regard
to this question provided the contrac-
tors who had already signed the scale
would be willing to sign another docu-
ment including the new regulations.

Those who attended the meeting on
Friday night were in doubt on this
point, and promised to investigate the
matter on Saturday. Several of the
smaller contractors were present and
did not take kindly to the proposition.
For this reason it was agreed to say
nothing about the matter until the
situation could be canvassed.

When the scale committee waited
upon the bosses on Saturday after-
noon they fell into line, and by even-
ing every contractor in the city had
affixed his signature to the revised
scale.

This ends the first of a series of
strikes and disputes involving the
building trades, and by the exercise
of good, sound judgment and a vast
amount of diplomacy on both sides,
terminates it in a manner that will
benefit both the employer and em-
ploye.

LESS THAN \$2.25 A DAY

SECRETARY SMITH TALKS ON
HOD CARRIERS' DEMANDS.

Would Be Glad to Accept That Figure.
Looks for an Eight-
Hour Day.

Henry Smith, secretary of the hod-
carriers' union, called at the News Re-
view office on Saturday and stated he
wished to correct a statement which
had been given out concerning the
dispute between his organization and
the contractors of the city.

Mr. Smith said there was no change
in the situation, and there would prob-
ably be no settlement before the
1st of May, when the 8-hour day was
expected to go into effect. He said:

"The impression seems to got out
that the brick wheelers were a part
of our organization. Now, such is not
the case. Every member of our
union is a hod carrier, and an experi-
enced one at that. There is not a
single man on strike at the present
time that is not a competent work-
man at our trade.

"It was stated a few days ago that
we had been offered \$2.25 per day.
That is another mistake. We would
be glad to accept \$2.25 a day for our
work, as that would be equivalent to
what we ask. We made a demand for
27 7-9 cents an hour, which, in nine
hours would amount to about \$2.50
as things stand just now. We had in-
tended, and had been advised to wait
until the 8-hour day had been inaugu-

rated before making the demand, but
concluded if we were to work for the
old wages till the time when other
trades were asking for something we
would likely come out behind.

"While the 27 7-9 cents an hour
would mean in the neighborhood of
\$2.50 per day for the present, or until
May 1, you can readily see that when
we get the 8-hour day, if it comes, we
would be receiving, if paid at the rate
of 27 7-9 cents, less than \$2.25 per day.
We would gladly accept that now if
it were offered.

"The original intention of our mem-
bers was to merely keep matters even.
There is not more than one day in
every 10 that we are not compelled to
pay street car fare in order to reach
our work, and when they day's work
is completed we have but \$1.90 for the
day. Our desire is to have our car
fare over and above the wages for the
day, and we do not think we are ask-
ing anything unreasonable."

AN AGENT ABUSED.

GEO. WOOD ASSAULTED BY CHES-
TER POTTERY WORKERS.

Only Timely Interference of Officers
Prevented Serious
Injury.

George W. Wood was brutally as-
saulted by a number of the clay hands
at the Taylor, Lee & Smith pottery
on the Southside this morning. It
was only by the timely interference
of the pottery officials that the man
escaped serious injury.

Mr. Wood represents Geo. W. Wood
& Co., manufacturers of Toledo, O.
He sells an atomizer, and it seems
some of his customers were not sat-
isfied with their dealings with him,
claiming the price of the article was
too high.

At the shop this morning they are
alleged to have taken him outside,
knocked him down and beaten him
unmercifully. Citizens are indignant,
holding that Mr. Wood was not to
blame, nobody having been compelled
to deal with him.

ted to Locate on the

The prominent men of this city
have taken the matter in hand and
have offered them a site on the Lloyd
tract a short distance below Chester.

to have been offered, but as yet noth-
ing definite has been done.

CARNEGIE ADDS TO EASTER JOY

Announces That He Will Present
St. Stephen's Church a
Fine Pipe Organ.

GIFT EXPECTED TO COST \$4,000

The Easter Program at the Episcopal
Church a Most Elaborate One.
Knights Templar Present—Impres-
sive Services in Other Churches.

Perhaps the most impressive Easter
service ever held in this city took
place yesterday morning in St. Ste-
phen's Episcopal church. Rev. Mr.
Weary also had a very pleasant an-
nouncement for his congregation.

A very large audience was in at-
tendance in the morning, and just as
the city clock tolled the hour of 11
the Pilgrim Commandery, Knights
Templar, in full uniform, marched
slowly forward in double column to
the front pews, which had been pre-
pared for them.

Immediately following this a voice
from the rear of the church announ-
ced the processional, "Jesus Lives,"
which the vested choir of 40 voices
rendered in harmonious volume as
they filed slowly up the aisle.

The program of special music which
was followed was very elaborate and
was rendered in a most impressive
manner. Miss Everson sang a beau-
tiful solo in pleasing voice and with
telling effect, and the entire program
was carried out with a precision and
harmony that showed the skillful
training of a master hand. The differ-
ent numbers were rendered exactly as
given in the complete program as pub-
lished in the News Review Satur-
day.

The rector's sermon, "From Death
Unto Life," was an able effort, deliv-
ered in a masterly and effective man-
ner. He divided his discourse into
three heads: The temple of the
world, the temple of Solomon and
the Temple of the church. He spoke
of "the temple of the world" as cre-
ated by God and of man's change;
first, from life unto death by trans-
gression of the law, and later "from
death unto life" through the sacrifice
of the Savior, whose resurrection oc-
curred on Easter day. He dwelt
briefly on "the temple of Solomon,"
the greatest the world had ever seen,
and upon the lofty purposes of the
Knights Templar in connection therewith. These temples were not suffi-
cient and the fitting climax was in
"the temple of the church," which
was founded by Christ on earth. The
pastor spoke at length on this divi-
sion of his discourse, giving a logical
demonstration of the superiority of
the church, in purpose, over all other
organizations.

The sermon was followed by a beau-
tiful solo. Just before the close of
the service Rev. Mr. Weary arose and
said:

"I know that the people of East Liv-
erpool do not appreciate a manuscript
sermon, but there are times when a
manuscript sermon comes with more
force than the ablest oral effort that
was ever delivered, and I have that
kind of a manuscript sermon for you
this morning." He then read the fol-
lowing letter:

Pittsburg, Pa., April 3, 1901.
"Rev. Edwin Weary, East Liverpool,
Ohio.

"Rev. Dear Sir—It is my pleasant
duty to inform you that Mr. Andrew
Carnegie, through his cashier, Mr. R.
A. Franks, directs me to inform you
of his desire to present the St. Ste-
phen's church of East Liverpool with a
suitable pipe organ.

"This is in pursuance of your letter
of application and you will greatly
oblige by giving this information to
your vestry and parish as pleasant
tidings, especially suitable for the
Easter celebration.

"Further necessary particulars will

CARNEGIE ADDS TO EASTER JOY

Announces That He Will Present
St. Stephen's Church a
Fine Pipe Organ.

GIFT EXPECTED TO COST \$4,000

The Easter Program at the Episcopal
Church a Most Elaborate One.
Knights Templar Present—Impres-
sive Services in Other Churches.

Perhaps the most impressive Easter
service ever held in this city took
place yesterday morning in St. Ste-
phen's Episcopal church. Rev. Mr.
Weary also had a very pleasant an-
nouncement for his congregation.

A very large audience was in at-
tendance in the morning, and just as
the city clock tolled the hour of 11
the Pilgrim Commandery, Knights
Templar, in full uniform, marched
slowly forward in double column to
the front pews, which had been pre-
pared for them.

Immediately following this a voice
from the rear of the church announc-
ed the processional, "Jesus Lives,"
which the vested choir of 40 voices
rendered in harmonious volume as
they filed slowly up the aisle.

The program of special music which
was followed was very elaborate and
was rendered in a most impressive
manner. Miss Everson sang a beau-
tiful solo in pleasing voice and with
telling effect, and the entire program
was carried out with a precision and
harmony that showed the skillful
training of a master hand. The differ-
ent numbers were rendered exactly as
given in the complete program as pub-
lished in the News Review Satur-
day.

The rector's sermon, "From Death
Unto Life," was an able effort, deliv-
ered in a masterly and effective man-
ner. He divided his discourse into
three heads: The temple of the
world, the temple of Solomon and
the Temple of the church. He spoke
of "the temple of the world" as cre-
ated by God and of man's change;
first, from life unto death by trans-
gression of the law, and later "from
death unto life" through the sacrifice
of the Savior, whose resurrection oc-
curred on Easter day. He dwelt
briefly on "the temple of Solomon,"
the greatest the world had ever seen,
and upon the lofty purposes of the
Knights Templar in connection there-
with. These temples were not suffi-
cient and the fitting climax was in
"the temple of the church," which
was founded by Christ on earth. The
pastor spoke at length on this divi-
sion of his discourse, giving a logical
demonstration of the superiority of
the church, in purpose, over all other
organizations.

The sermon was followed by a beau-
tiful solo. Just before the close of
the service Rev. Mr. Weary arose and
said:

"I know that the people of East Liv-
erpool do not appreciate a manuscript
sermon, but there are times when a
manuscript sermon comes with more
force than the ablest oral effort that
was ever delivered, and I have that
kind of a manuscript sermon for you
this morning." He then read the fol-
lowing letter:

Pittsburg, Pa., April 3, 1901.
"Rev. Edwin Weary, East Liverpool,
Ohio.

"Rev. Dear Sir—It is my pleasant
duty to inform you that Mr. Andrew
Carnegie, through his cashier, Mr. R.
A. Franks, directs me to inform you
of his desire to present the St. Ste-
phen's church of East Liverpool with
a suitable pipe organ.

"This is in pursuance of your letter
of application and you will greatly
oblige by giving this information to
your vestry and parish as pleasant
tidings, especially suitable for the
Easter celebration.

"Further necessary particulars will

EAST END.

QUARRELED OVER BEER.

East End Italians Fight and Settle Dispute Before the Squire.

Two Italians employed on the Smith addition became involved in a quarrel Saturday evening over the "white" beer and the "black" beer which they had purchased for the Easter celebration.

Louis Morroone choked Toney Man-koose and Toney came down to see Officer Terrence about it. Mr. Terrence listened to his tale of woe and sent the abused man to Justice Carman's office, where he put up the money for the costs and swore out a warrant for Morroone's arrest.

The warrant was turned over to Constable Powell who captured his man after a weary chase over the frozen hillside. Sixteen of the Italians accompanied the officer to the squire's office. The complainant and the defendant were examined and both told practically the same story. Each had struck and choked the other. The court gave his decision as follows:

"The testimony shows that both parties are guilty of disturbing the peace. I will therefore fine complainant and defendant each \$1 and costs, and if there is any more trouble I will send you both to jail."

Both paid up and returned to their shanty on the hillside, where they probably drank to each other's luck until time for Easter services Sunday morning.

EASTER ENTERTAINMENT.

An Elaborate One Given at the Second M. E. Church.

Quite an elaborate Easter entertainment was given at the Second M. E. church last night. The church was profusely decorated and a special program of class exercises and recitations was rendered by the Sunday school children. The choir rendered excellent music and the pastor made an appropriate address at the close. A very large audience was in attendance, all the available space being occupied, while scores were compelled to turn away.

The flowers used in the decorations were donated by the Epworth league to be used in connection with several funerals to take place today.

Mrs. Buxton's Funeral.

The remains of Mrs. George Buxton were brought to this city from Sebring Saturday night. They can be viewed at the residence on St. George street at 10 o'clock Tuesday. The funeral will take place at St. Stephen's Episcopal church at 2 o'clock Tuesday, Rev. Edwin Weary officiating. Robert Burford, G. H. Owens, James Barlam, G. J. Phillips, A. J. Johnson and Thomas Pickall will act as pall-bearers. Interment will be made at Grandview.

WILLIAM BARCLAY MERCER

HOW THE FAMOUS BASE BALL TWIRLER GOT HIS NAME.

Why He Is Called Winifred And Win Explained By W. A. Calhoun.

Since "Win" Mercer became still more prominent and signed a contract with the New York club for three years at a reported salary of \$3,500 a year, there is much gossip concerning him. A recently printed story that he got his nickname through rooters shouting to him, at a critical juncture of a hot game, "Win, Mercer! Win, Mercer!" calls out the following from W. A. Calhoun, ex-president of the Ohio Valley league, in the Pittsburg Commercial Gazette:

"Allow me to give the base ball public a correct version of Pitcher Mercer's sobriquet 'Win' in place of the wonderful 'pipe' or 'jag' given out by your correspondent in your Saturday edition. The writer knows the base ball history of Mercer perfectly, having seen him play probably every game he ever played in with local teams, and it was afterward my good fortune to pick 'Win' out as a 'comer,' and by the aid of Manager Frank Leonard, now of Syracuse, to introduce him to professional base ball in the New York league.

"Mercer's full name is William Barclay Mercer, and his sobriquet of 'Win' came about through an odd series of changes. Mercer came to East Liverpool from a West Virginia farm, and at that time was, as a boy, very much of a 'yap.' He found employment in the potteries here and was in the line of an old custom here to have a nickname and was christened 'Virginia,' which in time became 'Virgin,' and this latter was cut to 'Gin,' which in time became 'Win,' the writer, with several others, being responsible for the last change, which was soon extended to 'Winnie.' This was soon turned into 'Winifred' by eastern base ball writers, and as Winifred B. Mercer East Liverpool's star twirler has achieved a world-wide fame. To address this king of the diamond properly write his name plain William Barclay Mercer, and you will make no mistake."

WIFE HELPED HIM.

Paid Joseph Hartz's Fine And He Is Now Free—Robert Turner Fined \$14.60.

Joseph Hartz, who was slated to go to the works last week, is now at liberty. Mrs. Hartz came to this city yesterday from Wheeling and paid his fine of \$9.60.

Robert Turner was arrested Saturday night by Fireman Woods and taken to jail. He was drunk and was abusing his family. Mayor Davidson has little patience with characters of this kind and would have sent the fellow to the works for a long time but for the fact that Turner's family would suffer in consequence. As it was, a fine of \$14.60 was imposed. The prisoner squared up yesterday and was released.

CANNIBALISM AT SEA

Ghastly Stories Told by Survivors of a Shipwrecked Bark, Who Reached Singapore.

London, April 8.—The Singapore correspondent of The Daily Express wired a ghastly story of cannibalism at sea brought to Singapore by two survivors of the Nova Scotian bark Angola, wrecked about six days' sail from Manila, Oct. 23 last. The correspondent says:

"The survivors, Johnsen, a Swede, and Marticornu, a Spaniard, assert that the Angola struck a reef. Two rafts were built. The smaller, bearing five men, disappeared. The other, with 12 men, drifted for 40 days. The sailors ate barnacles, seaweed and finally their boots.

"On the twenty-fifth day two became insane and killed themselves. On the twenty-sixth a Frenchman killed the mate with an axe, drank his blood and tried to eat his brains, but was prevented by the others. Next day the Frenchman was killed while attempting to murder the captain. The survivors, all of whom were now insane, ate the Frenchman's body.

"Cannibalism continued until only Johnsen and Marticornu remained. On the forty-second day the raft stranded on Subi or Flat island, in the Natuna group (northwest of Borneo). Johnsen and Marticornu were awfully emaciated. Friendly Malays sent them by junk to Singapore."

CHURCH DEDICATED

A Christian Scientist Edifice Dedicated at Chicago—Quadruple Service to Accommodate Crowds.

Chicago, April 8.—Probably 10,000 persons participated Sunday in the dedication of the Second Church of Christ, Scientist, at Wrightwood and Pine Grove avenue. So great was the assemblage that a quadruple service was held. After the first service the side doors were opened and the audience passed out, while another group of worshippers entered through the front doors and participated in a repetition of the service. Twice more the ceremonial was repeated to audiences similarly admitted, and still the crowds lingered about the church, eager to get in.

The salutatory address was delivered by Reader Bicknell Young, after which a greeting from Mrs. Mary Baker Eddy was read.

Congratulatory telegrams from Edward A. Kimball, of Boston, and other Christian Scientists of prominence in all parts of the world were also read from the chancel at each service.

The church, including the ground upon which it stands, cost the society about \$120,000.

TROUBLE WITH KILN MEN.

Hinted That They Are Now on the Blacklist.

Trenton, N. J., April 8.—The trouble between the kilnmen and the management of the Crescent pottery promises to result more seriously than was at first expected. It may be that before long the kilnmen of other concerns under the control of the Trenton Pottery company will lay down their tools in sympathy with those already out.

It is said this action may be taken on account of the bosses in other potteries refusing to give work to any of the men who went out when the trouble arose at the Crescent. A sympathy strike is regarded as possible.

STOLE THE PICTURE

Adam Worth Said to Have Taken a Famous Painting About 25 Years Ago.

BARCAINED WITH ONE OWNER

Got Major Part of the Gold That He Paid For the Return of the Picture. English Authorities Not Likely to Prosecute.

New York, April 8.—The Herald was expected to say today: "Mystery no longer envelops the identity of the man who stole the Gainsborough portrait of the Duchess of Devonshire from the art rooms of William Agnew & Sons in London. The police say the man who took the picture is Adam Worth. Time, however, has outlawed the crime, and though Worth is well known to the Scotland Yard authorities and to the police of this country he has no fear of prosecution.

"After having the famous painting under his control for 25 years, lacking two months, Adam Worth, on March 26 of this year, returned it to C. Morland Agnew. The transfer was made in the Auditorium hotel, in Chicago, the details having been arranged by the two principals, who dealt through William Pinkerton and Patrick Sweeney.

"Mr. Agnew came to the United States for the purpose of obtaining possession of the Gainsborough canvas. Having accomplished his purpose he immediately started home. He should arrive in London today (Monday) with the precious picture, and it is probable that Adam Worth will travel to London from Liverpool on the same train with him. These two men were fellow passengers on the Etruria when that steamship left this port ten days ago. Worth traveled under an alias, his name not being on the Etruria's passenger list. It is even possible that he and Mr. Agnew formed a friendship for each other during the voyage. Mr. Agnew never knew with whom he was dealing when he was negotiating for the return of his picture. He had no suspicion that the man who received the major part of the gold he paid to get his canvas would sail with him on the Etruria.

"Adam Worth's life has been filled with rare adventures, and for the benefit of those who may think it worthy of emulation it should be added that he has spent many years at the hardest kind of labor behind prison walls. Worth is said to be a younger son of a family whose name has been respected and honored in England for generations."

"The Herald quotes a detective as saying that Worth fell into evil ways, and together with Suskovich, Joseph Kelly, Becker and others stole the painting from the Agnews, but that later he gave up his life of crime.

"Pat Sweeney acknowledged the other day that Mr. Pinkerton spoke to him about the stolen picture many years ago. "He told me to be on the lookout for it," said Sweeney, "and if I should ever fall in with any of the members of the gang to remember that the return of the picture would be a good thing."

Sweeney said: "You can readily understand that an agreement was entered into between Mr. Pinkerton, the man who stole the picture, and the gentleman gambler, of whom Mr. Pinkerton speaks in his statement. "It is true that I was in Chicago at the same time Mr. Agnew was last week, but I did not see him personally, although we were at the same hotel. I saw my friend Mr. Pinkerton there. I have known him for 30 years, and no other man ever lived. Yes, I was in Constantinople in 1897, but I will not say whether I saw a man who had escaped there concerning the return of the picture.

"Why, do you know that William Waldorf Astor wanted to get hold of that picture about a year ago? I was in London then. Thomas Fielders came to me as Mr. Astor's representative. They offered to give me \$5,000 if I would get the picture back. But no negotiations of such a character could have been carried on in London or in any part of Europe. America was the place for such work to be done.

"Now, let me tell you that if it had not been for the death of the queen the picture might not have been returned yet. The warrants which were issued at the time the picture was stolen were in the name of the queen. New warrants in the name of the king would have to be issued and new evidence gathered. Before these were issued Mr. Agnew was advised that, by entering into negotiations for the return of the picture, he could never be charged with compounding a felony.

"Mr. Agnew has his picture, the man who stole it has his reward, which I believe is about \$25,000, and the man who brought about the negotiations will receive the first copy of the picture from the engraved plate. The second copy will go to Mr. Pinkerton."

NAMING OF MAGEE REGULAR.

Dauphin County Court Sustains His Nomination.

Harrisburg, April 8.—The Dauphin county court did not waste much time on the Magee senatorial case. Judges Simonton and Weiss were on the bench when Attorney William J. Brennan, acting for James F. Kane, the Democratic candidate, opened the case.

He claimed the nomination of W. A. Magee, Jr., could not be certified to the county commissioners of Allegheny county as the Republican senatorial candidate in the Forty-third district because the section of the Baker ballot law requiring all nominations to be certified 14 days prior to the election was not complied with. Mr. Brennan had petitioned for an injunction, restraining the state department from issuing the certificate.

After Mr. Brennan had stated his case and made his plea Judge Simonton told him that his contention was very weak, and, even if good, would put Kane in the same hole with Magee. He then quashed the motion for an injunction and directed the prothonotary to order the state department to issue the certificates to the county commissioners of Allegheny county.

19 Smallpox Cases; 1 Fatal.

Toledo, O., April 8.—Nineteen cases of smallpox exist at Oak Harbor, and the entire town was quarantined. Some doubt existed as to the nature of the disease and Dr. C. O. Probst, of the state board of health, was summoned. Several cases are severe and one child, who died Friday of what was supposed to be chicken pox, was really a victim of smallpox. Scores of persons have been exposed, but it was hoped by rigid measures to prevent an epidemic.

Minister Attacked by Roughs.

Elwood, Ind., April 8.—During a convention of the members of the Holiness church, being held in this city, Rev. Hass, in the midst of his discourse, was attacked Sunday by a gang of drunken rowdies, ranging in age from 17 to 20 years. Rev. Hass was knocked down and trampled upon in his pulpit, and a general scrimmage followed. A riot call was sent in and the police arrested three members of the gang.

Columbus, O., April 8.—A conference of pastors and laymen representing churches of various denominations will be held here April 9, to discuss the advisability of forming an inter-denominational federation of the churches and Christian workers of Ohio. MILES SHOWED INTEREST.

Understood He Tried to Do Something For Russell B. Harrison.

Washington, April 7.—Lieutenant General Miles has shown unmistakable interest in the case of Russell B. Harrison, who was discharged on Dec. 1 from the volunteer army. General Miles is understood to have urged Secretary Root to restore the son of the late president to the volunteer army with the rank of lieutenant colonel.

No vacancy in any staff corps of the regular army is open to him, and if he wishes an appointment in the regular service the highest rank he could receive would be that of first lieutenant. It is understood, however, that Lieutenant Colonel Harrison desires vindication as much as anything else, and would accept an appointment as a lieutenant colonel of volunteers, with the understanding that he should be mustered out on July 1. There is apparently no disposition on the part of the war department to do anything for him.

LEGISLATIVE APPORTIONMENT.

Commission For Ohio Concluded Its Work.

Columbus, April 8.—The legislative apportionment of Ohio, under the new census, was completed by the commission composed of the governor, secretary of state and auditor of state. Lucas county is created a separate senatorial district, and four new joint legislative districts are created.

The next legislature will consist of 143 members. Based upon the vote for McKinley last fall, the new senate would consist of 24 Republicans and 9 Democrats; on the Nash-McLean vote, 20 Republicans and 19 Democrats. Based on the McKinley vote last fall, the new house would consist of 84 Republicans and 38 Democrats.

Great Mistake

It is for anyone to think they can buy cheaper millinery at a department store than one which is devoted exclusively to the Millinery trade. We can give you just as good a bargain and perhaps a better one, than any other store in the city and we give you something they cannot give—exclusive styles.

And, again, we sell you the materials and charge for our work, they add the price of the trimming to the price, of the goods.

It will pay you to call and let us prove our statement.

HASTY MARRIAGES.

The divorce problem is a theme of endless discussion and probably will continue so until the world is wiser and better. The complaint is made that the divorce laws of many states are too lax and that many persons who are not entitled to them secure divorce papers through perjury and fraud. No doubt this is to a certain extent true.

But giving the matter a local application, no one can say that divorces come easily in Columbiana county, and yet there are an unpleasantly large number of divorce cases pending in our courts all the time. A majority of them result in legal separations, but for causes which the law recognizes as valid. No fault can be found with the courts, and, according to eminent legal authority, very little with the law. Where, then, is the fault? Why are family ties broken, children left to the guardianship of one parent, and those who have sworn before God's altar to live together until death shall part them, destined through the rest of their lives to live as strangers or at least with no interests in common?

The reason is not far to seek. The majority of the marriages that turn out failures are hastily made and ill-conditioned. Too many young people enter upon the solemn obligations of matrimony with a very imperfect knowledge of what they are doing. Take the case of an East Liverpool woman which was presented to the court last week. She had been married less than a year, and yet she claimed that in that time her drunken and dissolute husband had struck her with his fists, threatened her with a shotgun and made life generally miserable. Nobody wants a law that would compel a wife thus treated to live with her husband. Is it likely that the woman could have had no knowledge before she was married of the sort of husband she was getting? Possible, certainly, but not probable. If she knew he was a drinking man and married him with the expectation of reforming him, she committed a fatal error, for which she has suffered dearly.

There is little reason displayed in the average courtship, and yet there is no part of the career of a man or woman which should call for more. Hasty engagements may turn out well, but it is mere luck if they do; unhappy marriages are more often their sequel. Many a young man who exhibits shrewd common sense in business transactions acts like a fool when he engages a feminine life-partner, and might as well hang himself and have done with it as to slip his head into the matrimonial noose. As long as so little wisdom is displayed in contracting marriages the divorce courts will continue to have plenty of business.

AMERICAN ENTERPRISE.

A prominent Canadian journal, through a series of questions and answers, shows what Americans have been doing for Canada and incidentally for themselves. From it we learn that "people from the states," as they call us across the border, bought gold

claims from British Columbia prospectors and sold them back to Canadians, pocketing the profits; that they developed the great wood pulp industry of the Dominion, and started the profitable iron industry of Cape Breton, were the moving spirits at Sault Ste. Marie, organized the Grand Trunk railway, gobbled up the Canadian export trade, built grain elevators and designed and erected the largest and finest buildings. Finally Americans are declared to be the quickest to appreciate and to employ the smartest of the young native Canadians.

All of which is true and so is much more that might be added. And what is true of Canada is true in a greater or less degree of Mexico and of South American countries. It is becoming true even in the very heart of the English metropolis. American trolley cars, with an elaborate underground system, designed and carried through by Americans, are making their appearance in London. The skyscraper and a thousand and one other American contrivances are fast becoming familiar the world over. Americans are accused by foreigners of being boastful. But haven't they a reasonable basis for all their boasts? They are hustlers, and the territory of the United States, vast as it is, is too limited for their efforts. They are waking up the world.

English ironworkers have just suffered another cut in wages, and they were getting far less than Americans before. No wonder many Englishmen are weary of the free trade principle.

If Aguinaldo had acknowledged earlier that his Uncle Sam was his greatest and best friend, he might have saved himself no end of annoyance as well as considerable shoe leather.

It's just as well we have no baseball team at present. They would soon be lost in the mud if they attempted to practice now.

The trouble with nine-tenths of the men who are waiting for an opportunity is that they don't know one when they see it.

Editor Bryan's paper is not a howling success as a party organ. His home town went Republican.

Lent is over and the umbrella jokes can be stored away for another season.

Colored Woman Said to Have Been Badly Treated on a Street Car.

According to a well known colored citizen, two colored women on a street car bound for Wellsville were grossly insulted Saturday evening. He says that Mrs. Minnis and her daughter Alice boarded a crowded car at the Diamond and were compelled to stand. Three drunken men were seated in the car and one of them said: "I would give my seat to a white woman, but not to a d— nigger," and even went so far as to kick Mrs. Minnis.

When Mrs. Minnis spoke to the conductor he is said to have promised to see what he could do and then dropped the matter.

Christening the Children.

An English parson of a church in Berbice, British Guiana, writes entertainingly of his pastoral duties. In the matter of christening the choice of name is left to the taste or fancy of the parents. This leads to strange combinations. He copies from his register "Nannie Bellona," "Trank Locust" and "Whisky Emmanuel." Of earlier times he tells the following:

One black man brought his child, and when the minister asked its name he said, "Serlatim ad Valorem."

On another occasion the parson asked, "What is the name of the child?" The father said, "Ax, parson." The minister looked inquiringly at the man and said:

"But I don't understand you."
 "Well, parson," said the man, "my mind g'le me to go troo de New Testament. I have had four boys. The first was named Matthew, the second Mark, the third Luke and the fourth John. Now, this, the fifth one, is to be Ax [Acts], parson."

Christening the Children.

An English parson of a church in Berbice, British Guiana, writes entertainingly of his pastoral duties. In the matter of christening the choice of name is left to the taste or fancy of the parents. This leads to strange combinations. He copies from his register "Nannie Bellona," "Trank Locust" and "Whisky Emmanuel." Of earlier times he tells the following:

One black man brought his child, and when the minister asked its name he said, "Seriatim ad Valorem."

On another occasion the parson asked, "What is the name of the child?"

The father said, "AX, parson." The minister looked inquiringly at the man and said:

"But I don't understand you."

"Well, parson," said the man, "my mind gi'e me to go troo de New Testament. I have had four boys. The first was named Matthew, the second Mark, the third Luke and the fourth John. Now, this, the fifth one, is to be AX [Acts], parson."

HOW THE RED MEN ARE ROBBED

Paradise for Hunters and Fishermen.
The Natives Get the Fish Drunk
And Slay Them With Arrows.
Large Families the Rule.

Ex-Senator W. V. Blake has written another interesting letter to a friend in this city, from Camp 16, Dawes commission, Wetumpka, Indian Territory. From it the News Review is permitted to make the following extracts:

"This township is more civilized, being thickly settled by white people from Arkansas, Missouri, Indiana, Pennsylvania and Ohio. Many of the settlers have married women of Indian blood, and they seem to be very intelligent and industrious people. The farmers and citizens are going to petition Postmaster General Smith to establish a postoffice in this district. The petitioners have named the place after an ex-senator from Ohio. Native modesty prevents me mentioning his name. Our next township—8, is a cuckoo—mountain, rocky ravines and dense thickets in the bottoms. Township 7 is a bird, also. As there are only five sections in 9 it will not take us long to appraise; 8 and 9 are on the banks of the Canadian river.

"I rode from camp to the Meander post on the bank of the river in Township 8 today. I stood on the sand dunes of the winding stream and gazed in amazement at the wild, weird, romantic and rugged scenery. On my returning to camp, on the trail through the woods, I saw a lot of young buck Indians shooting squirrel with bow and arrows. They are skilled in archery.

"The powers that be have released the members of the Snake band. They have promised to be good and accept their allotment of 160 acres per head. I know one Indian with 14 of a family, himself and wife making 16. Their allotment in the aggregate amounting to 2,560 acres of land. In the past, the redskin has been robbed, cheated and skinned by the white adventurer. The majority of Indians glide along in peaceful mediocrity, holding themselves on Easy street, as generations have done before them. The morality of the Greek is not of a very high standard. I have read that a people absorbed in the feverish race for subsistence, must be stunted and deformed. The Indian's soul, as well as his body, must be fed; his physical wants are, frequently, but the manifestations of moral defects and mental delinquencies. Nations prosper in the degree that they are morally strong. I think the half-breed is worse than the full-blood. When their allotments are made I think better conditions will result.

"Some of the Indians lease portions of their land for five years for \$1 on the condition that the tenant make certain improvements, fences, out-buildings, etc. Much land is rented at 25 cents per acre. Only cultivated land is to be paid for. For instance, a man may farm a quarter section out of a section, and on three-quarters of the section he may have 300 head of cattle grazing, but he only pays rent for land cultivated. Talk about lotteries! Grab bag and other genteel swindles are not in it with this system of fraud. Others give one-third of the corn and one-quarter of the cotton for land they farm. The woods are full of game, wild turkey, quail, grouse, deer, squirrel, rabbits, wildcats, wolves, coon and possum, the streams alive with fish, bass, perch, trout and catfish.

"The Indians have what they call fish killings. Gathering a weed called devil's shoestring, they bruise it in a wooden mortar, mixing extract of the root with water, then throw it in the streams. The fish get on a jamboree and come to the top of the water to perform their evolutions. They are an easy mark for the arrow of the Indian. Whenever the arrow flies you may count on a dead fish.

Tribute to Mildred Holland on Saturday Night.

Mildred Holland, as Aria, in "The Power Behind the Throne," made a great hit at the Grand Saturday night.

The leading role, which she played, was very difficult, but her rendition was superb. At the close of the third act Miss Holland was compelled to respond to four curtain calls.

The work of Leonard Walker, Frank Drew and Lillian Morris was excellent, and the entire cast deserves praise.

Perhaps the highest tribute to Miss Holland's popularity was shown in the exceptionally large audience that greeted her on the return engagement.

The rector then stated that he had seen Mr. Mayer personally, and had learned that the organ presented would probably cost about \$4,000 and would be built immediately.

At the close of the morning services the vestry met and decided to accept Mr. Carnegie's gift with thanks.

INCREASED INTEREST.

Result of Evangelist's Work Appeared in the Large Attendance at U. P. Church.

In the First U. P. church the Easter services began with a sunrise prayer meeting led by Evangelist Kaylor. A large audience spent an hour in joyful worship.

The benefit of the special meetings of the past three weeks was seen, not only in the number added to the church, but in the increased attendance and deepened interest of the old members. The Sabbath school had the largest audience for the year, while more communicants sat together than in the history of the congregation.

A large audience, filling pews and chairs in the aisles, attended the evening services. They were not disappointed in the message they heard. Taking as his theme the character and life of Daniel, prime minister of Babylon, through so many dynasties, Mr. Kaylor showed that his success was the result of his courageous and upright conduct springing out of the principle upon which he acted as a young man when he "purposed in his heart that he would not defile himself with the king's meat." One lesson for young men was that it pays even for this life to be true and loyal to the right. Another was that God will interpose in behalf of those who are loyal to Him.

The evangelist, despite the arduous labors of the day, having addressed a large men's meeting in the afternoon, spoke with all his usual earnestness and power. The meetings will continue each evening during the week. On account of the meeting of presbytery, there will be no afternoon meetings until further notice.

MEANING OF EASTER

Address to Children by the Lutheran Pastor—Service of Confirmation.

St. John's Evangelical Lutheran church celebrated a glorious Easter day. The largest number in the history of the church partook of holy communion at the morning service. The rite of confirmation was most solemn and impressive. The sermon was full of deep thought and solid instruction. In the afternoon the Sunday school assembled in the auditorium, where after a song service, the pastor addressed the children on the significance of Easter.

Another large congregation gathered at the English evening service. While the processional was being sung by the congregation standing, the newly confirmed class of catechumens, headed by the pastor, marched into the church and took their places in front of the chancel. After liturgical service, the pastor spoke to the

class from the text, John 2:28. A point on which he dwelt specially was, "Let not the wisdom of the world shake your faith in the gospel of Jesus Christ. It has stood the test of ages, and will abide unto the Lord's coming." He exhorted them to a diligent use of the means of grace, the word of God and the holy sacrament, for they are the bulwarks of the church.

The decorations of the sanctuary were of a high order and a credit to the good taste of the committee that had charge. The music from both ancient and modern sources, beautifully rendered, added greatly to the edification of the worshipers. Twenty communicants were added to the church. The offering of the day amounted to \$70.

IN OTHER CHURCHES.

Elaborate Musical Programs And Eloquent Discourses.

The Easter services in all the city churches were excellent and attracted unusually large congregations.

The First Presbyterian church presented a choice musical program, which was carried out in full in a manner that called forth much praise. Pastor Jordan preached two eloquent and impressive sermons.

At the First M. E. church there was special Easter music and excellent sermons by Rev. Dr. Clark Crawford.

Pastor Gladden, of the First M. P. church, in the morning preached on "The Risen Savior," and in the evening delivered a most impressive sermon. The musical program at both services was elaborate and finely rendered. There were 413 in attendance at the Sunday school. An orchestra of 10 pieces furnished excellent music.

SIMPLE YET IMPRESSIVE.

Easter Services at the Second Presbyterian Church.

Easter was observed in the Second Presbyterian church in a simple but impressive manner. Rev. J. P. Leyenberger, pastor of the Island Creek Presbyterian church, being in charge of the services and preaching morning and evening. His morning sermon was in keeping with the thought of the day: "Weeping may endure for a night, but joy cometh in the morning." He spoke of the accomplishments of God's people, notwithstanding their trials, when trusting implicitly upon the power of God to deliver.

During a certain period the people of Israel were sorely perplexed. Destruction apparently awaited them at the hands of the Syrian army, but while the people were in tears, the King Hezekiah and the Prophet Isaiah were on their knees imploring the only aid possible, and God heard and delivered, and after the night of weeping joy came in the morning.

After the burial of Christ Mary Magdalene was first at the tomb. She was weeping, as she supposed they had borne her Lord away and she knew not where they had laid him. Then Jesus appeared to her and spoke her name so tenderly, "Mary." Joy unspeakable came to her on that first Easter morning, and the church throughout Christendom has ever since been echoing and re-echoing the glad refrain, "the Lord is risen indeed."

Reminiscence of a Theatman.

At Brighton Beach I hit Mose Rosenstein, who was organizing a one night "Faust" company, for a job.

"What part do you wish to take?" he inquired shortly.

"I wish to take the place of Mephistopheles, of course," I answered, drawing myself up proudly, for I had on a new suit of clothes and could afford to look him in the face.

"And why do you wish to take that particular part?" he inquired.

I was amazed at his dullness; but, concealing my disgust as far as possible, I explained that it was because the devil always gets his dues. He seemed pleased at my repartee, wrote me out a \$500 per week contract and paid me my first week's salary of \$7.50 in advance. I played the devil in "Faust" until nearly the end of the season, after which I was cast in "The Foundry," a workingman's play.—Indianapolis Sun.

Her Criticism.

Mary is very stout, quite deaf and the trusted housemaid of a family in the East park section. Incidentally she seems to be something of an art critic. When she cleans the family rooms, she is heard to mutter and shake her head in dusting the pictures, and she seems to be especially severe on a few representatives of the "altogether" that hang in the little den. One day Mary was flitting her dustcloth about in this little room when her mistress happened in. Mary was standing gazing intently at a beautiful photograph of Bouguereau's "Cupid and Psyche."

"And phwat pictur' is that?" asked Mary in hard, cold tones.

"Oh, that is 'Cupid and Psyche,'" said the lady rather indifferently.

"Moody and Sanky, is ut? Well, I hav' heered of them felleys. Sure, they ought to be ashamed of themselves."—Philadelphia Record.

How He Got Religion.

"Did you ever get religion?" asked the revivalist.

"Well, I should say so—138 pounds of it," replied the man.

"A hundred and thirty-eight pounds of religion!" cried the revivalist. "How did you get that?"

"The only way that a good many men ever get religion," was the reply; "I married it."—Chicago Post.

How He Got Religion.

"Did you ever get religion?" asked the revivalist.

"Well, I should say so—138 pounds of it," replied the man.

"A hundred and thirty-eight pounds of religion!" cried the revivalist. "How did you get that?"

CHINA AGREES TO PENALTIES

Ministers, at China's Request, Agreed to Have a Sentence of Banishment Placed Upon an Aged Official, Committed to Deprivation of Office.

Pekin, April 8.—Mr. Rockhill, United States special commissioner in Peking, had a long interview with Li Hung Chang, who satisfied him that there was not likely to be any further important hitch in the negotiations for a settlement between China and the powers. China has agreed to the list of punishments submitted by the ministers of the powers, asking only one concession, namely, deprivation of office, instead of banishment, in the case of a man who is 70 years of age. To this the ministers agreed. Li Hung Chang said the court is extremely anxious to return to Peking as soon as the foreign troops evacuate the capital.

Some of the ministers of the powers began to think that so large a force as 2,000 troops acting as legion guards in the city proper would

may. The impression of the officials at the embassy was that no special significance attached to the Squiers dispatch. According to them it simply meant that the Russians had discontinued further negotiations at this time on the Manchurian question alone, which for the time is held in abeyance. This was in accord with the spirit of the official publications of the government on this matter, which asserted that remaining faithful to its original and out-repeated political program regarding Manchuria, "it will quietly await the further course of events."

London, April 8.—The Yokohama correspondent of The Daily Mail, wiring yesterday and dealing with the attitude of Japan toward Russia's Chinese policy, says:

"Shipping companies have been ordered to hold their vessels in readiness for transport service. Cruisers on the reserve list have been commissioned for active service. All leave has been recalled, and officers of the first reserve have been warned for service. There is much popular excitement."

Washington, April 8.—"All the war-like news," said Mr. M. Komatz, secretary of the Japanese legation, in an interview which was expected to be published in the Washington Post today, "which have been sent out from Japan by foreign correspondents to London and thence transmitted to this country, are more or less exaggerated, and some of them utterly groundless. For instance, nothing can be more false than the report which appeared on Saturday to the effect that Japan addressed to Russia a note, which almost amounted to an ultimatum. Now that China has refused to sign the Manchurian convention, and Russia has decided not to insist upon its conclusion, I am quite at a loss to find out what has given rise to such preposterous reports."

"It is very likely that the Japanese minister at St. Petersburg should have given Russia verbal advice that the latter would better submit the convention to the international conference at Peking, and there is no reason why Russia would refrain from doing so, if the convention contained nothing, as has been declared by Russia herself, which was detrimental to the integrity of China or injurious to the interests of the powers concerned. Japan is ready to approve or support any proposition, no matter whatever state makes it, provided it is just and proper. All that Japan wants in international transactions is 'fair play,' and nothing more, but nothing less. It is believed that the Peking negotiations will proceed in perfect harmony, uninterrupted by the incident caused by the Manchurian convention, which now seems to have been fairly settled."

RECORDERS APPOINTED

Gov. Stone Named Brown For Pittsburgh and Murphy For Allegheny City.

Harrisburg, April 8.—Major A. M. Brown was Saturday appointed recorder of Pittsburgh and John R. Murphy of Allegheny. The announcement was made by Governor Stone. The decision which resulted in these appointments was made after a conference at the executive mansion. At this conference were the governor, Senator Penrose, Attorney General J. P. Elkin, Director J. O. Brown, City Attorney Clarence Burleigh and Judge Elliott Rodgers, of Pittsburgh.

W. B. Rodgers, author of the new charter, in the course of an interview published Sunday, said: "The appointment is an excellent one. The position was offered to Mr. Thomas S. Bigelow. Within a week it was again offered, but upon conditions inconsistent with the proper exercise Bigelow declined it."

During the course of an interview, the attention of Major Brown was called to the fact that it had been asserted his appointment was made without the governor having any consultation with Senator Quay. On this subject he said:

"I do not know from Senator Quay that my candidacy was desired by him, but from the fact that persons in close touch with him came to see me I certainly had reason to believe so. I consider it extremely improbable that the governor would make the appointment without consulting him. Furthermore I today received the assurance of one who has all along been well posted on the events at Harrisburg that the appointment was not tendered to Mr. Bigelow. No doubt is entertained that his name was considered in connection with it, and that he stood a very good chance of being appointed, but that the appointment was ever actually offered him is denied."

"Has any intimation been conveyed to you," was asked, "that Governor Stone expects to control the appointments under you, if you accept this position?"

"There has not been the least intimation of a desire on his part to control any official act of mine whatever. And I can say that he will not control if I accept. Of course advice offered by the governor in a friendly spirit would be received in the same spirit and given consideration for what it is worth, the same as if it came from any other man of such standing and experience as to entitle him to a hearing. But if I take that position it will be to discharge its duties according to what judgment and conscience shall show me to be right. And I do not believe there is any desire on the part of the governor to have me do otherwise."

be a great mistake. Such a body would have to remain in a space of one square mile. The troops could not be allowed outside the legation quarters armed, and it would probably not be safe for them to go unarmed.

It was thought by some of the ministers that if the encampment were made from 12 to 15 miles away, with the necessary stores, this arrangement would be much preferable, as a telegram could bring the troops into the city immediately.

Moreover, several ministers were insulted by troops of other nations. Mr. Rockhill and Sir Ernest Mason Satow, the British minister, were returning from dinner in Sedan chairs when the chairs were stopped by German soldiers, who proceeded to beat the bearers. The ladies of the party were greatly frightened.

The ministers almost generally feared that the presence in Peking of a considerable force of troops of various nationalities might be a source of international friction.

They were not entirely pleased with the military proposals of the generals, as they failed to see the necessity for the demolition of all forts.

Washington, April 8.—The administration was perplexed over a cable dispatch received Saturday from Mr. Squiers, now in charge of the American legation in Peking. This dispatch according to a publication Sunday said that the Russian minister refuses to receive official communications from Chinese commissioners, which carried the inference that diplomatic relations between the two countries interested would be broken off. The officials were very reticent about the matter and declined to affirm or deny whether it is correctly stated. They went far enough to admit the receipt of a dispatch, whose purport was not clearly understood, for which reason it was not given to the press for publication. Another cablegram which reached here Sunday from Mr. Rockhill, the special commissioner of the United States engaged in conducting the peace negotiations, made no reference to the alleged refusal of the Russians to receive official communications from the Chinese commissioners. As Mr. Rockhill is in a position to know promptly what develops between the ministers and the peace commissioners, it is believed he would be prompt to report a step of such far-reaching importance as the published dispatch from Mr. Squiers would indicate. At the Russian embassy no information on the subject was obtainable last night. It was said there that no communications had come from the foreign office at St. Petersburg since the Russian note of several days since, which declared that government's intentions regarding Manchuria, a copy of which was handed to Secretary

As Mr. Rockhill is in a position to know promptly what develops between the ministers and the peace commissioners, it is believed he would be prompt to report a step of such far-reaching importance as the published dispatch from Mr. Squiers would indicate. At the Russian embassy no information on the subject was obtainable last night. It was said there that no communications had come from the foreign office at St. Petersburg since the Russian note of several days since, which declared that government's intentions regarding Manchuria, a copy of which was handed to Secretary

JONES' STORY FALSE

Patrick Declares the Confession of the Rice Murder Is Untrue.

CALLS IT A FAIRY TALE

Said It Was Result of Collaboration Between Jones, Witthaus, Baker, Battle and Osborne—Scheme to Hold Him During Will Litigation.

New York, April 8.—Lawyer Albert T. Patrick, who is charged with the murder of Millionaire William Marsh Rice, made a statement last night concerning the case. He had been asked to say something concerning a story printed in a morning paper to the effect that ex-Valet Jones had spent several hours, accompanied by a policeman attached to the district attorney's office, in touring the Tenderloin district. According to this story, hotels, concert halls and gardens and theaters had been visited by the prisoner and his attendant and dozens of drinks taken. On this point Lawyer Patrick said:

"I have known that this kind of thing has been going on for several weeks. I could not have sworn that such was the case, but I have heard from various sources that Jones was plentifully supplied with money, was taken out buggy-riding and was otherwise treated with great kindness and consideration."

Patrick went on to speak of the Rice murder case. He said in part: "Jones never killed W. M. Rice. Had he done so he never would have testified to it, especially as the district attorney has promised him no immunity, nor would his counsel, even though provided by Captain Baker, have permitted him to do so. His confidence is due to the fact that W. M. Rice, at the age of 84, died of heart failure, as did his brother, F. A. Rice, yesterday, at the age of 70, and there will never be any proof otherwise. The only crime of which Jones is guilty is that of conspiring against the 1900 will and that of perjury in the present proceedings. His fairy story is the result of a collaboration with Captain James A. Baker, Jones' lawyer; Mr. Battle, who is hired by Baker; Assistant District Attorney Osborne and Prof. Witthaus, the professional expert, whose report Osborne for the last six months has been expecting in a few days, and who swore that Rice died of mercurial poisoning, if he did not die of something else."

"The object of Jones' story is to have me held in prison pending the will litigation."

"It would take but little corroboration to convict Jones upon his own confession, but it would take a great deal to convict me upon Jones' accusations. If I am held or indicted for murder, Jones will certainly be also, and I would surely be acquitted, but in his effort to have himself corroborated he might be convicted, innocent though he is, and then he would surely be electrocuted, for no hand could save him."

"Jones is staking his life upon the ability of the handwriting experts to discredit Rice's signature, which Jones saw him write and which he shows by his numerous statements and uncertain testimony that he knows Rice signed."

"Jones may rest assured that those for whom he has outlawed himself from mankind will abandon him when they can no longer use him."

"As to my own position I can only say that I will be vindicated and will be able to discharge all duties devolving upon and maintain all rights belonging to me, all of which, however, is in the hands of my able and conservative attorneys."

"Of personal revenge I have no thought, but if I am ever convinced that W. M. Rice was murdered I shall do my utmost to convict all implicated, in which event I am sure I can prove the motive to the alleged will of 1896 and the instigators to be persons striving to uphold it, and prove that Jones did the deed believing that he could thus prevent the consummation of Mr. Rice's plans through me."

District Attorney Philbin was asked Sunday what he knew of Jones' alleged tour of the Tenderloin. He replied that he knew nothing whatever except what he had read."

"Have you at any time given permission for him to absent himself from the house of detention except when he was in attendance at court?"

"I have not," he replied. Assistant District Attorney Osborne last night said that he was aware of Jones' trip through the Tenderloin Friday night and that it was taken for the purpose of locating witnesses to testify in the Rice case. He added that six witnesses were wanted and that one had been located by means of this trip."

APPOMATTOX DAY

An Especial Effort Being Made This Year to Make the Affair a Successful One.

The thirty-sixth anniversary of the surrender of General Lee at Appomattox Court House, which practically ended the Civil war, will be commemorated by General Lyon Post, G. A. R., on Tuesday evening, April 9.

Each year since the institution of the local Grand Army post in January, 1881, the event has been celebrated in various ways, and has continued through the years that have passed to be an occasion to be looked forward to with pleasure by the residents of the city.

At the beginning the entertainment was held in the post room, but it was soon found that the quarters were inadequate to accommodate the large crowds. It was then taken to the old Fifth street rink, where for many years the occasion grew in favor until even this capacious hall was scarcely large enough to allow the immense crowds to thoroughly enjoy themselves.

Since the removal of the old rink, Appomattox day has been celebrated in the post rooms on Fifth street, and this year the organization is determined to make it the most successful in recent years. They have been promised and will receive the support and assistance of the Woman's Relief Corps and the Sons of Veterans.

Attention, G. A. R.

General Lyon Post, with the W. R. C. and the S. of V., will celebrate Appomattox's day at Grand Army hall, Exchange building, on Tuesday evening, April 9, by their annual bean bake. Supper will be served from 5:30 to 8:30 p. m. The menu will consist of baked beans, roast pork, roast veal, mashed potatoes, hot coffee, etc.

After supper there will be a musical and literary entertainment consisting of solos, songs, recitations and short speeches by comrades and others. All are invited. Proceeds for the benefit of relief fund.

PROFESSOR GARNER IN HIS MONKEY PROOF CAGE.

Whether Professor R. L. Garner, who is now in Africa, has perished in the jungle or not cannot be definitely known, for he is far beyond the outposts of civilization. It is certain, however, that he was alive a little over a month ago, as a receipt for money sent to him was received late in January at a Boston bank. Professor Garner is living in the forest in an iron cage endeavoring to learn more about the language of monkeys.

Chiefs of Brotherhoods Were Unable to Settle With New Jersey Central.

New York, April 8.—In the opinion of a good many people a strike is imminent on the Central Railroad of New Jersey system. This opinion is based on the fact that Chief P. M. Arthur, of the Brotherhood of Locomotive Engineers, left the city last night for his home in Cleveland, and Chief Frank P. Sargent, of the Brotherhood of Locomotive Firemen, was preparing to leave the city also. Added to this was a statement by E. E. Clark, chief of the Brotherhood of Conductors, who said that he certainly would sanction any action his men, meaning the conductors of the road, might see fit to take.

The chiefs of the brotherhoods professed to feel angry at their failure to bring about negotiations with Vice President Warren, of the railroad, concerning the points of difference between the company and its employees.

Child Was Murdered.

Butte, Mont., April 8.—Medical examination of the body of 9-year-old Evelyn Blowitt, whose body was nearly consumed by the fire on Saturday in the cabin of John Warne, the aged watchman at the Walkerville reservoir, was made. It demonstrated beyond doubt that the child had been murdered. The back of the head was crushed in as by a blow from a hammer and the neck broken. Warne is in Anaconda, having been taken there Saturday night when word reached the jail that a mob was forming at Walkerville to lynch him.

Tiller Was Recaptured.

Chicago, April 8.—Prentice Tiller and G. H. Grant, alias A. B. Chase, alias C. Martin, who were recently arrested in Nebraska, and who were wanted by the federal authorities in Cincinnati and other cities for robbing the United States mails, made a sensational dash for liberty in the Union station last evening. Grant made his escape from the officer who had the two men in charge and is still at large. Tiller was captured.

Clay Was Holding the Fort.

Lexington, April 8.—General Cassius M. Clay was still holding the fort alone and no one was admitted to Whitehall except James Bolin, his bodyguard. General Clay intimated Saturday that he would live on a supply of meat and canned goods that he had stored away, but he changed his mind Sunday morning and ordered Bolin, who lives about a hundred yards from the mansion, to have his wife prepare his meals.

Minister Read His Resignation.

New York, April 8.—The Rev. Chauncey W. Goodrich, pastor of the Presbyterian church at St. Cloud, West Orange, N. J., Sunday read his resignation from the pulpit of that church. Mr. Goodrich accepted a call to the Bolton Street Presbyterian church, of Cleveland.

How Niagara Wears the Rock.

All who have been to Niagara know that the cataract is divided by Goat island, the larger portion of the fall being on the Canadian side of the river. This part is known as the Horseshoe fall and was so named because years ago it was identical with a horseshoe in shape. A few years ago a V shaped break occurred toward the New York side, and since then other changes have taken place, until today the Horseshoe fall is more like its original form, but clearly shows the effects of the wearing of the waters.

Many people fail to see how the falls wear the rock away, and this is a little mystery until the exact conditions are realized. The ledge of rock over which the water of both the American and Horseshoe falls flows is of hard limestone. It is all of 60 feet thick and naturally very heavy. Underneath this ledge of limestone there are the shales of the Niagara locality. This soft rock is many feet thick. The rock of the Horseshoe fall is unprotected, and as the water falls over the precipice and boils in the river below it washes away the soft shale beneath the limestone, so that the limestone is left in shelllike form, projecting far out into the gorge. Observant visitors to the falls have no doubt noticed this condition.

In the course of time the shale foundation of the limestone ledge is excavated to such a point that the unsupported ledge breaks away by its own weight, and the crest line of the Horseshoe fall recedes so much farther. Then the water attacks the newly exposed shale, and in time the process outlined is repeated. This has been going on for centuries, and it will continue until the falls of Niagara are no more.—Philadelphia Record.

The Preacher Was Glad She Swore.

The daughter of a well known clergyman in Washington had a severe attack of scarlet fever when she was 3 years old which resulted in deafness. Up to that time she had been a regular little chatterbox, doing her infantile best to carry out the proverbial:

Being a woman, she'll talk forever!

Upon her recovery her parents were nearly heartbroken to find that she had not only lost her hearing, but the power of speech as well. Whether she had really forgotten how to talk or whether it was obstinacy or lack of confidence they could not determine, but despite all efforts of the best tutors the child remained a mute.

One day when she was nearly 10 years of age she was playing with a cat, and with as much cruelty as though she were of the sterner sex she used its tail as a handle with which to pick it up. The poor animal, not appreciating the economic use of the aforesaid tail, inflicted a deep scratch across the chubby little hand.

"Damn that cat!" she said, flinging it down.

And her father, devout clergyman as he was, clasped his hands and, raising his eyes to heaven, exclaimed:

"Thank God, that child has spoken at last!"—Detroit Free Press.

THE DEADLY COBRA.

How Venomous Creature Is Handled by Hindoo Snake Charmers.

The creatures were on the defensive, but not one of them attempted to strike at the master, who sat serenely in front of them, so long as he did nothing to annoy them. Kullian talked to them as if they were his dearest friends. After a time one or the other of them would lower its head, collapse its hood and begin to try to wriggle away. Whereupon Kullian would give it a smart little rap on the tail with his stick and bring it instantly to attention again. Whether this man possessed any special magic over these cobras or whether the description given below of how he could handle and play with them was simply due to his method I cannot say. He himself repudiated the idea of magic and asserted positively that any one who had the necessary nerve and dexterity could do exactly the same.

He used no reed instrument or music of any kind to propitiate the reptiles. He would simply squat on his haunches in front of them, and, after they had been hissing and swaying their uplifted heads backward and forward for a few minutes, he raised his hands above their heads and slowly made them descend till they rested on the snakes' heads. He then stroked them gently, speaking all the time in

the most endearing Hindoostanee terms. The serpents appeared spell-bound. They made no effort to resist the liberty, but remained quite still with heads uplifted, and seemed rather to enjoy it. Presently his hands would descend down the necks about three inches below the heads, his fingers would close loosely around the necks, and he would lift them off the ground and place them on his shoulders. The looseness of the grip appeared to be the main secret. The snakes, being in no way hurt, would then slowly crawl through his fingers and wind themselves round his neck, his shoulders and his arms. They appeared to realize that no harm was to be done them, and they made no effort to resent the handling. He would pick them gently off one arm and place them on the other and, in fact, stroke them and pet them as if they had been a pair of harmless worms.—Cornhill.

PROFESSOR GARNER IN HIS MONKEY PROOF CAGE.

Whether Professor R. L. Garner, who is now in Africa, has perished in the jungle or not cannot be definitely known, for he is far beyond the outposts of civilization. It is certain, however, that he was alive a little over a month ago, as a receipt for money sent to him was received late in January at a Boston bank. Professor Garner is living in the forest in an iron cage endeavoring to learn more about the language of monkeys.

MAY BE A STRIKE.

Chiefs of Brotherhoods Were Unable to Settle With New Jersey Central.

New York, April 8.—In the opinion of a good many people a strike is imminent on the Central Railroad of New Jersey system. This opinion is based on the fact that Chief P. M. Arthur, of the Brotherhood of Locomotive Engineers, left the city last night for his home in Cleveland, and Chief Frank P. Sargent, of the Brotherhood of Locomotive Firemen, was preparing to leave the city also. Added to this was a statement by E. E. Clark, chief of the Brotherhood of Conductors, who said that he certainly would sanction any action his men, meaning the conductors of the road, might see fit to take.

The chiefs of the brotherhoods professed to feel angry at their failure to bring about negotiations with Vice President Warren, of the railroad, concerning the points of difference between the company and its employees.

Child Was Murdered.

Butte, Mont., April 8.—Medical examination of the body of 9-year-old Evelyn Blowitt, whose body was nearly consumed by the fire on Saturday in the cabin of John Warne, the aged watchman at the Walkerville reservoir, was made. It demonstrated beyond doubt that the child had been murdered. The back of the head was crushed in as by a blow from a hammer and the neck broken. Warne is in Anaconda, having been taken there Saturday night when word reached the jail that a mob was forming at Walkerville to lynch him.

Tiller Was Recaptured.

Chicago, April 8.—Prentice Tiller and G. H. Grant, alias A. B. Chase, alias C. Martin, who were recently arrested in Nebraska, and who were wanted by the federal authorities in Cincinnati and other cities for robbing the United States mails, made a sensational dash for liberty in the Union station last evening. Grant made his escape from the officer who had the two men in charge and is still at large. Tiller was captured.

Clay Was Holding the Fort.

Lexington, April 8.—General Cassius M. Clay was still holding the fort alone and no one was admitted to Whitehall except James Bolin, his bodyguard. General Clay intimated Saturday that he would live on a supply of meat and canned goods that he had stored away, but he changed his mind Sunday morning and ordered Bolin, who lives about a hundred yards from the mansion, to have his wife prepare his meals.

Minister Read His Resignation.

New York, April 8.—The Rev. Chauncey W. Goodrich, pastor of the Presbyterian church at St. Cloud, West Orange, N. J., Sunday read his resignation from the pulpit of that church. Mr. Goodrich accepted a call to the Bolton Street Presbyterian church, of Cleveland.

How Niagara Wears the Rock.

All who have been to Niagara know that the cataract is divided by Goat island, the larger portion of the fall being on the Canadian side of the river. This part is known as the Horseshoe fall and was so named because years ago it was identical with a horseshoe in shape. A few years ago a V shaped break occurred toward the New York side, and since then other changes have taken place, until today the Horseshoe fall is more like its original form, but clearly shows the effects of the wearing of the waters.

Many people fail to see how the falls wear the rock away, and this is a little mystery until the exact conditions are realized. The ledge of rock over which the water of both the American and Horseshoe falls flows is of hard limestone. It is all of 60 feet thick and naturally very heavy. Underneath this ledge of limestone there are the shales of the Niagara locality. This soft rock is many feet thick. The rock of the Horseshoe fall is unprotected, and as the water falls over the precipice and boils in the river below it washes away the soft shale beneath the limestone, so that the limestone is left in shell-like form, projecting far out into the gorge. Observant visitors to the falls have no doubt noticed this condition.

In the course of time the shale foundation of the limestone ledge is excavated to such a point that the unsupported ledge breaks away by its own weight, and the crest line of the Horseshoe fall recedes so much farther. Then the water attacks the newly exposed shale, and in time the process outlined is repeated. This has been going on for centuries, and it will continue until the falls of Niagara are no more.—Philadelphia Record.

The Preacher Was Glad She Swore.

The daughter of a well known clergyman in Washington had a severe attack of scarlet fever when she was 3 years old which resulted in deafness. Up to that time she had been a regular little chatterbox, doing her infantile best to carry out the proverbial:

Being a woman, she'll talk forever!

Upon her recovery her parents were nearly heartbroken to find that she had not only lost her hearing, but the power of speech as well. Whether she had really forgotten how to talk or whether it was obstinacy or lack of confidence they could not determine, but despite all efforts of the best tutors the child remained a mute.

One day, when she was nearly 10 years of age she was playing with a cat, and with as much cruelty as though she were of the sterner sex she used its tail as a handle with which to pick it up. The poor animal, not appreciating the economic use of the aforesaid tail, inflicted a deep scratch across the chubby little hand.

"Damn that cat!" she said, flinging it down.

And her father, devout clergyman as he was, clasped his hands and, raising his eyes to heaven, exclaimed:

"Thank God, that child has spoken at last!"—Detroit Free Press.

THE DEADLY COBRA.

How Venomous Creature Is Handled by Hindoo Snake Charmers.

The creatures were on the defensive, but not one of them attempted to strike at the master, who sat serenely in front of them, so long as he did nothing to annoy them. Kullian talked to them as if they were his dearest friends. After a time one or the other of them would lower its head, collapse its hood and begin to try to wriggle away. Whereupon Kullian would give it a smart little rap on the tail with his stick and bring it instantly to attention again. Whether this man possessed any special magic over these cobras or whether the description given below of how he could handle and play with them was simply due to his method I cannot say. He himself repudiated the idea of magic and asserted positively that any one who had the necessary nerve and dexterity could do exactly the same.

He used no reed instrument or music of any kind to propitiate the reptiles. He would simply squat on his haunches in front of them, and, after they had been hissing and swaying their uplifted heads backward and forward for a few minutes, he raised his hands above their heads and slowly made them descend till they rested on the snakes' heads. He then stroked them gently, speaking all the time in

the most endearing Hindoostani terms. The serpents appeared spell-bound. They made no effort to resent the liberty, but remained quite still with heads uplifted, and seemed rather to enjoy it. Presently his hands would descend down the necks about three inches below the heads, his fingers would close loosely around the necks, and he would lift them off the ground and place them on his shoulders. The looseness of the grip appeared to be the main secret. The snakes, being in no way hurt, would then slowly crawl through his fingers and wind themselves round his neck, his shoulders and his arms. EVENING NEWS REVIEW.

16TH YEAR. NO. 254.

EAST LIVERPOOL, O., MONDAY, APRIL 8, 1901.

TWO CENTS

THE SCREEN LAW WILL BE FOUGHT

It Goes to Effect Tonight and
Liquor Dealers Have Agreed
to Test It.

THEY WILL STAND TOGETHER

Three Saloonkeepers Agree to Have
Various Points of the Ordinance
Tested at Their Respective Places
of Business—Much Interest.

At 9 o'clock tonight Dr. Marshall's
new screen ordinance goes into effect,
and all preparations have been made
by the liquor dealers to meet the
obstacle.

Much speculation has been rife as
to the constitutionality of the law,
and the general opinion of the legal
fraternity seems to be that it will not
hold water.

It is argued that no law nor ordi-
nance can compel the owner of a
building to change the architecture of
the place to comply with the ideas of
some fanciful legislator.

The executive board of the local
liquor dealers' association, composed
of Messrs. Guthrie, Devine and Walsh,
have decided to test the law and the
ball will be started tonight. So far
as the city is concerned the affair
will be simply a matter of form, as the
cases will be at once carried to a higher
court.

Mr. Guthrie's place in Diamond alley
is especially well adapted for a test
of the section with reference to the
wine rooms and he has volunteered
to try conclusions with the authorities
on that point. Devine will stand the
test on the matter of one door, while
Mr. Walsh will look after the screen
feature.

BAD STREET CAR SERVICE

ON THE EAST LIVERPOOL LINE
YESTERDAY.

No Less Than Eight Different Cars
Were Off the Track at
Various Points.

The employees of the East Liverpool
street railway have had their own
troubles since Saturday evening and
no less than five accidents have oc-
curred.

At 10:30 Saturday night car No. 11,
Motorman Hendershot, left the track
at the foot of Franklin street and ran
to the curb above the run. There
was a number of passengers on the
car, bound for Wellsville, and they
were all more or less shaken up. The
car was entirely clear of the tracks
and traffic was not delayed. The
wreck crew was summoned and the
car replaced. The accident occurred
at the identical spot that Motorman
Hamilton lost his life several years
ago.

Car No. 16, Motorman Elsie Ketch-
um, jumped the track at Kountz's
corner Sunday evening and the 64 pas-
sengers were compelled to wade about
in the mud, while a transfer was
made.

Number 15, Motorman Lebold, went
off the track at 7:30 last night, and
no less than 100 people were lined up
along the fence for more than an
hour, and when they did get started
the service was very bad.

It has been demonstrated within the
past few weeks that the cars recently
purchased by the company are not suit-
able for this line. The flanges of the
wheels are either too small or the
car is too large for a single track. A
great majority of the accidents that
have happened in the last month have
been to the new cars.

Street car No. 7 seems to be the
Jonah of the East Liverpool line.

The car has been off the track at
every dangerous point on the road,
and apparently has an especial dis-
like for the arrangement of the tracks
at the old Sixth street switch. In the
probable 15 trips the car makes in a
day it goes off the track at that point
several times.

HER LAST MESSAGE.

GIRL SAID TO HAVE SENT IT TO
HER LOVER.

Broken Promise Led Her to Take
Laudanum With Result Not
Yet Known.

"If you want to see me alive come
right away."

These were the words of a tele-
phone message sent by Miss Belle
Johnson, who lives about two miles
east of Chester, to Clyde Figley, of
East Liverpool, at about 11 o'clock.

It is said the girl had taken a dose
of laudanum and intended this to be
her last message to her sweetheart.
Miss Johnson is about 18 years of
age. Her father is dead and she has
been living with a family by the name
of Cornell. It is said that her life has
been a very unhappy one.

It is also said that the young man
was to call on the young lady last
night and failed to keep his promise.
She became despondent and took
poison, after which she wrote the note
and dispatched it with a special mes-
senger to the nearest phone. The
young man received it with a laugh
and said he guessed "she must be
off." The bearer of the note could not
state whether a doctor had been
called and did not know the amount
of laudanum the girl had taken. It
was impossible to learn whether the
young man answered the message,
and whether the girl had really at-
tempted suicide or was merely trying
to scare her lover.

BEHIND BARS AGAIN.

JESSE M'GREGOR VIOLATES HIS
PAROLE AND GOES TO JAIL.

The Murderer Arrested at Wellsville
And Taken to Lisbon By
the Sheriff.

Jesse McGregor, who, about seven
years ago, murdered Lizzie Ewing
and received a life sentence and was
afterward paroled, is again behind
the bars. He was arrested in Well-
sville and Sheriff Noragon took him
to Lisbon jail this morning.

Drunkenness, which was a violation
of his parole, was one of the charges
leading to his arrest. He had been
out of prison about a year and a half.
He will have a hearing before Judge
Boone next Friday morning.

In Wellsville on Saturday evening
there was an exciting fight between
ex-Chief of Police James Madden, and
Edward Eckler, son of Captain Eckler.
The contest was bloody and Madden
came out of it with a badly damaged
countenance and bodily bruises. Eck-
ler was arrested, though it is claimed
Madden was the aggressor.

Captain Eckler is indignant and

PAINTERS GET WHAT THEY ASKED

The Strike Is Settled and Their
Wages Will Be \$2.55 Per
Day Hereafter.

THE CONTRACTORS ALL AGREE

End of the First of a Series of Strikes
in the Building Trades—Much Di-
plomacy Has Been Exercised on
Each Side.

The troubles between the boss pain-
ters and their employes have been am-
icably adjusted, and to the perfect sat-
isfaction of all concerned.

At the conference on Friday night
the contractors presented a proposi-
tion which was in substance that, pro-
vided the men would include a clause
in their scale which would prohibit
any boss painter from bidding on pa-
per hanging for less than 15 cents a
bolt, they would agree to pay a uni-
form price of \$2.55 per day, which to
all intents and purposes would mean
street car fare one way.

There was some doubt in the minds
of the men as to whether their con-
stitution would permit them to exert
sufficient authority to dictate to the
employers what price they should
adopt for any certain class of work.
However, they decided to return to
their old jobs pending an answer from
their national headquarters in regard
to this question provided the contrac-
tors who had already signed the scale
would be willing to sign another docu-
ment including the new regulations.

Those who attended the meeting on
Friday night were in doubt on this
point, and promised to investigate the
matter on Saturday. Several of the
smaller contractors were present and
did not take kindly to the proposition.
For this reason it was agreed to say
nothing about the matter until the
situation could be canvassed.

When the scale committee waited
upon the bosses on Saturday after-
noon they fell into line, and by even-
ing every contractor in the city had
affixed his signature to the revised
scale.

This ends the first of a series of
strikes and disputes involving the
building trades, and by the exercise
of good, sound judgment and a vast
amount of diplomacy on both sides,
terminates it in a manner that will
benefit both the employer and em-
ploye.

LESS THAN \$2.25 A DAY

SECRETARY SMITH TALKS ON
HOD CARRIERS' DEMANDS.

Would Be Glad to Accept That Figure.
Looks for an Eight-
Hour Day.

Henry Smith, secretary of the hod-
carriers' union, called at the News Re-
view office on Saturday and stated he
wished to correct a statement which
had been given out concerning the
dispute between his organization and
the contractors of the city.

Mr. Smith said there was no change
in the situation, and there would prob-
ably be no settlement before the
1st of May, when the 8-hour day was
expected to go into effect. He said:

"The impression seems to get out
that the brick wheelers were a part
of our organization. Now, such is not
the case. Every member of our
union is a hod carrier, and an experi-
enced one at that. There is not a
single man on strike at the present
time that is not a competent work-
man at our trade.

"It was stated a few days ago that
we had been offered \$2.25 per day.
That is another mistake. We would
be glad to accept \$2.25 a day for our
work, as that would be equivalent to
what we ask. We made a demand for
27 7-9 cents an hour, which, in nine
hours would amount to about \$2.50
as things stand just now. We had in-
tended, and had been advised to wait
until the 8-hour day had been inaugu-

rated before making the demand, but
concluded if we were to work for the
old wages till the time when other
trades were asking for something we
would likely come out behind.

"While the 27 7-9 cents an hour
would mean in the neighborhood of
\$2.50 per day for the present, or until
May 1, you can readily see that when
we get the 8-hour day, if it comes, we
would be receiving, if paid at the rate
of 27 7-9 cents, less than \$2.25 per day.
We would gladly accept that now if
it were offered.

"The original intention of our mem-
bers was to merely keep matters even.
There is not more than one day in
every 10 that we are not compelled to
pay street car fare in order to reach
our work, and when they day's work
is completed we have but \$1.90 for the
day. Our desire is to have our car
fare over and above the wages for the
day, and we do not think we are ask-
ing anything unreasonable."

AN AGENT ABUSED.

GEO. WOOD ASSAULTED BY CHE-
STER POTTERY WORKERS.

Only Timely Interference of Officers
Prevented Serious
Injury.

George W. Wood was brutally as-
saulted by a number of the clay hands
at the Taylor, Lee & Smith pottery
on the Southside this morning. It
was only by the timely interference
of the pottery officials that the man
escaped serious injury.

Mr. Wood represents Geo. W. Wood
& Co., manufacturers of Toledo, O.
He sells an atomizer, and it seems
some of his customers were not sat-
isfied with their dealings with him,
claiming the price of the article was
too high.

At the shop this morning they are
alleged to have taken him outside,
knocked him down and beaten him
unmercifully. Citizens are indignant,
holding that Mr. Wood was not to
blame, nobody having been compelled
to deal with him.

ing definite has been done.

CARNEGIE ADDS TO EASTER JOY

Announces That He Will Present
St. Stephen's Church a
Fine Pipe Organ.

GIFT EXPECTED TO COST \$4,000

The Easter Program at the Episcopal
Church a Most Elaborate One.
Knights Templar Present—Impres-
sive Services in Other Churches.

Perhaps the most impressive Easter
service ever held in this city took
place yesterday morning in St. Ste-
phen's Episcopal church. Rev. Mr.
Weary also had a very pleasant an-
nouncement for his congregation.

A very large audience was in at-
tendance in the morning, and just as
the city clock tolled the hour of 11
the Pilgrim Commandery, Knights
Templar, in full uniform, marched
slowly forward in double column to
the front pews, which had been pre-
pared for them.

Immediately following this a voice
from the rear of the church announ-
ced the processional, "Jesus Lives,"
which the vested choir of 40 voices
rendered in harmonious volume as
they filed slowly up the aisle.

The program of special music which
was followed was very elaborate and
was rendered in a most impressive
manner. Miss Everson sang a beau-
tiful solo in pleasing voice and with
telling effect, and the entire program
was carried out with a precision and
harmony that showed the skillful
training of a master hand. The differ-
ent numbers were rendered exactly as
given in the complete program as pub-
lished in the News Review Satur-
day.

The rector's sermon, "From Death
Unto Life," was an able effort, deliv-
ered in a masterly and effective man-
ner. He divided his discourse into
three heads: The temple of the
world, the temple of Solomon and
the Temple of the church. He spoke
of "the temple of the world" as cre-
ated by God and of man's change;
first, from life unto death by trans-
gression of the law, and later "from
death unto life" through the sacrifice
of the Savior, whose resurrection oc-
curred on Easter day. He dwelt
briefly on "the temple of Solomon,"
the greatest the world had ever seen,
and upon the lofty purposes of the
Knights Templar in connection there-
with. These temples were not suffi-
cient and the fitting climax was in
"the temple of the church," which
was founded by Christ on earth. The
pastor spoke at length on this divi-
sion of his discourse, giving a logical
demonstration of the superiority of
the church, in purpose, over all other
organizations.

The sermon was followed by a beau-
tiful solo. Just before the close of
the service Rev. Mr. Weary arose and
said:

"I know that the people of East Liv-
erpool do not appreciate a manuscript
sermon, but there are times when a
manuscript sermon comes with more
force than the ablest oral effort that
was ever delivered, and I have that
kind of a manuscript sermon for you
this morning." He then read the fol-
lowing letter:

Pittsburg, Pa., April 3, 1901.
"Rev. Edwin Weary, East Liverpool,
Ohio.

"Rev. Dear Sir—It is my pleasant
duty to inform you that Mr. Andrew
Carnegie, through his cashier, Mr. R.
A. Franks, directs me to inform you

EAST END.

QUARRELED OVER BEER.

East End Italians Fight and Settle Dispute Before the Squire.

Two Italians employed on the Smith addition became involved in a quarrel Saturday evening over the "white" beer and the "black" beer which they had purchased for the Easter celebration.

Louis Morroone choked Toney Man-koose and Toney came down to see Officer Terrence about it. Mr. Terrence listened to his tale of woe and sent the abused man to Justice Carman's office, where he put up the money for the costs and swore out a warrant for Morroone's arrest.

The warrant was turned over to Constable Powell who captured his man after a weary chase over the frozen hillside. Sixteen of the Italians accompanied the officer to the squire's office. The complainant and the defendant were examined and both told practically the same story. Each had struck and choked the other. The court gave his decision as follows:

"The testimony shows that both parties are guilty of disturbing the peace. I will therefore fine complainant and defendant each \$1 and costs, and if there is any more trouble I will send you both to jail."

Both paid up and returned to their shanty on the hillside, where they probably drank to each other's luck until time for Easter services Sunday morning.

EASTER ENTERTAINMENT.

An Elaborate One Given at the Second M. E. Church.

Quite an elaborate Easter entertainment was given at the Second M. E. church last night. The church was profusely decorated and a special program of class exercises and recitations was rendered by the Sunday school children. The choir rendered excellent music and the pastor made an appropriate address at the close. A very large audience was in attendance, all the available space being occupied, while scores were compelled to turn away.

The flowers used in the decorations were donated by the Epworth league to be used in connection with several funerals to take place today.

Mrs. Buxton's Funeral.

The remains of Mrs. George Buxton were brought to this city from Sebring Saturday night. They can be viewed at the residence on St. George street at 10 o'clock Tuesday. The funeral will take place at St. Stephen's Episcopal church at 2 o'clock Tuesday, Rev. Edwin Weary officiating. Robert Burford, G. H. Owens, James Barlam, G. J. Phillips, A. J. Johnson and Thomas Pickall will act as pall-bearers. Interment will be made at Grandview.

WILLIAM BARCLAY MERCER

HOW THE FAMOUS BASE BALL TWIRLER GOT HIS NAME.

Why He Is Called Winfred And Win Explained By W. A. Calhoun.

Since "Win" Mercer became still more prominent and signed a contract with the New York club for three years at a reported salary of \$3,500 a year, there is much gossip concerning him. A recently printed story that he got his nickname through rooters shouting to him, at a critical juncture of a hot game, "Win, Mercer! Win, Mercer!" calls out the following from W. A. Calhoun, ex-president of the Ohio Valley league, in the Pittsburg Commercial Gazette:

"Allow me to give the base ball public a correct version of Pitcher Mercer's sobriquet 'Win' in place of the wonderful 'pipe' or 'jag' given out by your correspondent in your Saturday edition. The writer knows the base ball history of Mercer perfectly, having seen him play probably every game he ever played in with local teams, and it was afterward my good fortune to pick 'Win' out as a 'comer,' and by the aid of Manager Frank Leonard, now of Syracuse, to introduce him to professional base ball in the New York league.

"Mercer's full name is William Barclay Mercer, and his sobriquet of 'Win' came about through an odd series of changes. Mercer came to East Liverpool from a West Virginia farm, and at that time was, as a boy, very much of a 'yap.' He found employment in the potteries here and was in the line of an old custom here to have a nickname and was christened 'Virginia,' which in time became 'Virgin,' and this latter was cut to 'Gin,' which in time became 'Win,' the writer, with several others, being responsible for the last change, which was soon extended to 'Winnie.' This was soon turned into 'Winifred' by eastern base ball writers, and as Winifred B. Mercer East Liverpool's star twirler has achieved a world-wide fame. To address this king of the diamond properly write his name plain William Barclay Mercer, and you will make no mistake."

WIFE HELPED HIM.

Paid Joseph Hartz's Fine And He Is Now Free—Robert Turner Fined \$14.60.

Joseph Hartz, who was slated to go to the works last week, is now at liberty. Mrs. Hartz came to this city yesterday from Wheeling and paid his fine of \$9.60.

Robert Turner was arrested Saturday night by Fireman Woods and taken to jail. He was drunk and was abusing his family. Mayor Davidson has little patience with characters of this kind and would have sent the fellow to the works for a long time but for the fact that Turner's family would suffer in consequence. As it was, a fine of \$14.60 was imposed. The prisoner squared up yesterday and was released.

Youngstown chemists have analyzed a deposit of clay found underneath land owned by D. C. Nevin, formerly of East Palestine, and Frank Hood, of Youngstown. It is said that the find is a most valuable one, and will mean the making of much money for the lucky discoverers of the deposit. The clay is under several acres, and is easily gotten out for market. It is said the owners of the land are likely to become millionaires.

CANNIBALISM AT SEA

Ghastly Stories Told by Survivors of a Shipwrecked Bark, Who Reached Singapore.

London, April 8.—The Singapore correspondent of The Daily Express wired a ghastly story of cannibalism at sea brought to Singapore by two survivors of the Nova Scotian bark Angola, wrecked about six days' sail from Manila, Oct. 23 last. The correspondent says:

"The survivors, Johnsen, a Swede, and Marticornu, a Spaniard, assert that the Angola struck a reef. Two rafts were built. The smaller, bearing five men, disappeared. The other, with 12 men, drifted for 40 days. The sailors ate barnacles, seaweed and finally their boots.

"On the twenty-fifth day two became insane and killed themselves. On the twenty-sixth a Frenchman killed the mate with an axe, drank his blood and tried to eat his brains, but was prevented by the others. Next day the Frenchman was killed while attempting to murder the captain. The survivors, all of whom were now insane, ate the Frenchman's body.

"Cannibalism continued until only Johnsen and Marticornu remained. On the forty-second day the raft stranded on Subi or Flat island, in the Natuna group (northwest of Borneo). Johnsen and Marticornu were awfully emaciated. Friendly Malays sent them by junk to Singapore."

CHURCH DEDICATED

A Christian Scientist Edifice Dedicated at Chicago—Quadruple Service to Accommodate Crowds.

Chicago, April 8.—Probably 10,000 persons participated Sunday in the dedication of the Second Church of Christ, Scientist, at Wrightwood and Pine Grove avenue. So great was the assemblage that a quadruple service was held. After the first service the side doors were opened and the audience passed out, while another group of worshippers entered through the front doors and participated in a repetition of the service. Twice more the ceremonial was repeated to audiences similarly admitted, and still the crowds lingered about the church, eager to get in.

The salutatory address was delivered by Reader Bicknell Young, after which a greeting from Mrs. Mary Baker Eddy was read.

Congratulatory telegrams from Edward A. Kimball, of Boston, and other Christian Scientists of prominence in all parts of the world were also read from the chancel at each service.

The church, including the ground upon which it stands, cost the society about \$120,000.

TROUBLE WITH KILNMEN.

Hinted That They Are Now on the Blacklist.

Trenton, N. J., April 8.—The trouble between the kilnmen and the management of the Crescent pottery promises to result more seriously than was at first expected. It may be that before long the kilnmen of other concerns under the control of the Trenton Pottery company will lay down their tools in sympathy with those already out.

It is said this action may be taken on account of the bosses in other potteries refusing to give work to any of the men who went out when the trouble arose at the Crescent. A sympathy strike is regarded as possible.

STOLE THE PICTURE

Adam Worth Said to Have Taken a Famous Painting About 25 Years Ago.

BARGAINED WITH ONE OWNER

Got Major Part of the Gold That He Paid For the Return of the Picture. English Authorities Not Likely to Prosecute.

New York, April 8.—The Herald was expected to say today: "Mystery no longer envelops the identity of the man who stole the Gainsborough portrait of the Duchess of Devonshire from the art rooms of William Agnew & Sons in London. The police say the man who took the picture is Adam Worth. Time, however, has outlawed the crime, and though Worth is well known to the Scotland Yard authorities and to the police of this country he has no fear of prosecution.

"After having the famous painting under his control for 25 years, lacking two months, Adam Worth, on March 26 of this year, returned it to C. Morland Agnew. The transfer was made in the Auditorium hotel, in Chicago, the details having been arranged by the two principals, who dealt through William Pinkerton and Patrick Sheedy.

"Mr. Agnew came to the United States for the purpose of obtaining possession of the Gainsborough canvas. Having accomplished his purpose he immediately started home. He should arrive in London today (Monday) with the precious picture, and it is probable that Adam Worth will travel to London from Liverpool on the same train with him. These two men were fellow passengers on the Etruria when that steamship left this port ten days ago. Worth traveled under an alias, his name not being on the Etruria's passenger list. It is even possible that he and Mr. Agnew formed a friendship for each other during the voyage. Mr. Agnew never knew with whom he was dealing when he was negotiating for the return of his picture. He had no suspicion that the man who received the major part of the gold he paid to get his canvas would sail with him on the Etruria.

"Adam Worth's life has been filled with rare adventures, and for the benefit of those who may think it worthy of emulation it should be added that he has spent many years at the hardest kind of labor behind prison walls. Worth is said to be a younger son of a family whose name has been respected and honored in England for generations."

The Herald quotes a detective as saying that Worth fell into evil ways, and together with Suskovitch, Joseph Kelly, Becker and others stole the painting from the Agnews, but that later he gave up his life of crime.

Pat Sheedy acknowledged the other day that Mr. Pinkerton spoke to him about the stolen picture many years ago. "He told me to be on the look-out for it," said Sheedy, "and if I should ever fall in with any of the members of the gang to remember that the return of the picture would be a good thing."

Sheedy said: "You can readily understand that an agreement was entered into between Mr. Pinkerton, the man who stole the picture, and the 'gentleman gambler,' of whom Mr. Pinkerton speaks in his statement.

"It is true that I was in Chicago at the same time Mr. Agnew was last week, but I did not see him personally, although we were at the same hotel. I saw my friend Mr. Pinkerton there. I have known him for 30 years, and no truer man ever lived. Yes, I was in Constantinople in 1897, but I will not say whether I saw a man who had escaped there concerning the return of the picture.

"Why, do you know that William Waldorf Astor wanted to get hold of that picture about a year ago? I was in London then. Thomas Fielders came to me as Mr. Astor's representative. They offered to give me \$25,000 if I would get the picture back. But no negotiations of such a character could have been carried on in London or in any part of Europe. America was the place for such work to be done.

"Now, let me tell you that if it had not been for the death of the queen the picture might not have been returned yet. The warrants which were issued at the time the picture was stolen were in the name of the queen. New warrants in the name of the king would have to be issued and new evidence gathered. Before these were issued Mr. Agnew was advised that, by entering into negotiations for the return of the picture, he could never be charged with compounding a felony.

"Mr. Agnew has his picture, the man who stole it has his reward, which I believe is about \$25,000, and the man who brought about the negotiations will receive the first copy of the picture from the engraved plate. The second copy will go to Mr. Pinkerton."

COUNTY AND NEIGHBORHOOD.

Mines at Salem, Leetonia and Washingtonville are idle on account of a strike.

The Akron Water Works company will erect an additional 10,000,000 gallon reservoir.

Youngstown has decided to raise the \$12,000 needed for its library without aid of Carnegie.

Frank J. Brown's Standard Marble and Toy works at Akron were damaged \$2,000 by a fire started by incendiaries.

There is a controversy at Akron over \$3,000 in board bills, claimed to be due the hotels for accommodating the state militia.

Louis R. Deville, a prominent business man of Canton, is dead of blood poisoning, which developed from a small pimple.

There is snow deep enough for sleighing on the hills near Templeton, Pa., while in the valley grass is beginning to appear.

Youngstown police arrested Frank Butler and Mabel Smith, a runaway couple from Akron. The girl said they were 21 and they were released.

Winfield Scott Carmichael aged 45, died Friday at Wellsburg, W. Va., from lockjaw. He was a member of the Presbyterian church. A wife and seven children survive.

At Youngstown Charles Rolland and Peter Hall, indicted for grand larceny in stealing a large quantity of railroad rails from the Carbon Limestone company, were found guilty.

The Lake Valley Land Improvement company has purchased Myers' lake, near Canton, for \$100,000. The resort consists of 272 acres, 92 of which are covered with water.

John R. Derrott, an old-time steamboatman, died at St. Francis' hospital, Pittsburg. He had been a resident of Sharpsburg all his life. He was 56 years of age and had served over 40 years on the Ohio river.

Rev. J. H. Hollingshead, of Cleveland, formerly of Wellsville, has married Mrs. Carrie Hammond, editor of the Ohio W. C. T. U. Messenger. He is on the retired list of the M. E. church. This is his third marriage.

Rev. Walter Spellman, of Columbus, has declined the call extended by the English Trinity Lutheran church of Youngstown, and a call has been sent to Rev. Henry Ackley, of Baltimore.

A sort of an every-man-his-own undertaker plan has been set on foot in Akron by the organization of a Mutual Burial association. It is intended to secure 1,000 members, who will contribute 12 cents each to pay the funeral expenses when any of their number dies.

NAMING OF MAGEE REGULAR.

Dauphin County Court Sustains His Nomination.

Harrisburg, April 8.—The Dauphin county court did not waste much time on the Magee senatorial case. Judges Simonton and Weiss were on the bench when Attorney William J. Brennan, acting for James F. Kane, the Democratic candidate, opened the case.

He claimed the nomination of W. A. Magee, Jr., could not be certified to the county commissioners of Allegheny county as the Republican senatorial candidate in the Forty-third district because the section of the Baker ballot law requiring all nominations to be certified 14 days prior to the election was not complied with. Mr. Brennan had petitioned for an injunction, restraining the state department from issuing the certificate.

After Mr. Brennan had stated his case and made his plea Judge Simonton told him that his contention was very weak, and, even if good, would put Kane in the same hole with Magee. He then quashed the motion for an injunction and directed the prothonotary to order the state department to issue the certificates to the county commissioners of Allegheny county.

19 Smallpox Cases; 1 Fatal.

Toledo, O., April 8.—Nineteen cases of smallpox exist at Oak Harbor, and the entire town was quarantined. Some doubt existed as to the nature of the disease and Dr. C. O. Probst, of the state board of health, was summoned. Several cases are severe and one child, who died Friday of what was supposed to be chicken pox, was really a victim of smallpox. Scores of persons have been exposed, but it was hoped by rigid measures to prevent an epidemic.

Minister Attacked by Roughs.

Elwood, Ind., April 8.—During a convention of the members of the Holiness church, being held in this city, Rev. Hass. in the midst of his discourse, was attacked Sunday by a gang of drunken rowdies, ranging in age from 17 to 20 years. Rev. Hass was knocked down and trampled upon in his pulpit, and a general scrimmage followed. A riot call was sent in and the police arrested three members of the gang.

CHURCH FEDERATION

Conference of Some Ohio Pastors and Laymen to Be Held April 9.

Columbus, O., April 8.—A conference of pastors and laymen representing churches of various denominations will be held here April 9, to discuss the advisability of forming an inter-denominational federation of the churches and Christian workers of Ohio. Many of the leading ministers and religious workers of the state are actively interested in the movement and will attend the conference. Among them are:

Dr. Washington Gladden, of Columbus; Rev. E. B. Sanford, D. D., secretary of the National Federation; President Alfred T. Perry, Marietta college; President J. W. Bashford, Ohio Wesleyan university; Rev. A. C. Miller, D. D., president C. E. State union; Rev. Levi Gilbert, D. D., editor of the Western Christian Advocate.

MILES SHOWED INTEREST.

Understood He Tried to Do Something For Russell B. Harrison.

Washington, April 7.—Lieutenant General Miles has shown unmistakable interest in the case of Russell B. Harrison, who was discharged on Dec. 1 from the volunteer army. General Miles is understood to have urged Secretary Root to restore the son of the late president to the volunteer army with the rank of lieutenant colonel.

No vacancy in any staff corps of the regular army is open to him, and if he wishes an appointment in the regular service the highest rank he could receive would be that of first lieutenant. It is understood, however, that Lieutenant Colonel Harrison desires vindication as much as anything else, and would accept an appointment as a lieutenant colonel of volunteers, with the understanding that he should be mustered out on July 1. There is apparently no disposition on the part of the war department to do anything for him.

LEGISLATIVE APPORTIONMENT.

Commission For Ohio Concluded Its Work.

Columbus, April 8.—The legislative apportionment of Ohio, under the new census, was completed by the commission composed of the governor, secretary of state and auditor of state. Lucas county is created a separate senatorial district, and four new joint legislative districts are created.

The next legislature will consist of 143 members. Based upon the vote for McKinley last fall, the new senate would consist of 24 Republicans and 9 Democrats; on the Nash-McLean vote, 20 Republicans and 19 Democrats. Based on the McKinley vote last fall, the new house would consist of 84 Republicans and 38 Democrats.

Patrick R. Cotter Dead.

Harrisburg, April 8.—Patrick R. Cotter, member of the house of representatives from McKean county, died Saturday evening at the Grand hotel, in this city. He had been ill since Thursday night, suffering from naemic poison. Mr. Cotter served a term as district attorney of McKean county and was a soldier in the Civil War. He was 57 years of age.

Puddlers Were Wanted.

Youngstown, O., April 8.—Puddlers were wanted in the Mahoning valley. This was on account of the starting of the Hazleton mill, which had been idle since the Republic Iron and Steel company took hold, about two years ago. Most of the puddlers left town when it was closed down. Now the mill in the departments may be started next Wednesday if enough men can be secured.

Jumper Dead.

Fort Lauderdale, Fla., April 8.—"Old John" Jumper is dead at his camp on Snook creek. Jumper was one of Chief Jumper's sons, who reigned during some of Florida's darkest wars with his tribe. All the white citizens knew him well, as he was for a number of years chief counsel for the Seminoles. He was about 85 years old.

HASTY MARRIAGES.

The divorce problem is a theme of endless discussion and probably will continue so until the world is wiser and better. The complaint is made that the divorce laws of many states are too lax and that many persons who are not entitled to them secure divorce papers through perjury and fraud. No doubt this is to a certain extent true.

But giving the matter a local application, no one can say that divorces come easily in Columbiana county, and yet there are an unpleasantly large number of divorce cases pending in our courts all the time. A majority of them result in legal separations, but for causes which the law recognizes as valid. No fault can be found with the courts, and, according to eminent legal authority, very little with the law. Where, then, is the fault? Why are family ties broken, children left to the guardianship of one parent, and those who have sworn before God's altar to live together until death shall part them, destined through the rest of their lives to live as strangers or at least with no interests in common?

The reason is not far to seek. The majority of the marriages that turn out failures are hastily made and ill-conditioned. Too many young people enter upon the solemn obligations of matrimony with a very imperfect knowledge of what they are doing. Take the case of an East Liverpool woman which was presented to the court last week. She had been married less than a year, and yet she claimed that in that time her drunken and dissolute husband had struck her with his fists, threatened her with a shotgun and made life generally miserable. Nobody wants a law that would compel a wife thus treated to live with her husband. Is it likely that the woman could have had no knowledge before she was married of the sort of husband she was getting? Possible, certainly, but not probable. If she knew he was a drinking man and married him with the expectation of reforming him, she committed a fatal error, for which she has suffered dearly.

There is little reason displayed in the average courtship, and yet there is no part of the career of a man or woman which should call for more. Hasty engagements may turn out well, but it is mere luck if they do; unhappy marriages are more often their sequel. Many a young man who exhibits shrewd common sense in business transactions acts like a fool when he engages a feminine life-partner, and might as well hang himself and have done with it as to slip his head into the matrimonial noose. As long as so little wisdom is displayed in contracting marriages the divorce courts will continue to have plenty of business.

AMERICAN ENTERPRISE.

A prominent Canadian journal, through a series of questions and answers, shows what Americans have been doing for Canada and incidentally for themselves. From it we learn that "people from the states" as they call us across the border, bought gold

claims from British Columbia prospectors and sold them back to Canadians, pocketing the profits; that they developed the great wood pulp industry of the Dominion, and started the profitable iron industry of Cape Breton, were the moving spirits at Sault Ste. Marie, organized the Grand Trunk railway, gobbled up the Canadian export trade, built grain elevators and designed and erected the largest and finest buildings. Finally Americans are declared to be the quickest to appreciate and to employ the smartest of the young native Canadians.

All of which is true and so is much more that might be added. And what is true of Canada is true in a greater or less degree of Mexico and of South American countries. It is becoming true even in the very heart of the English metropolis. American trolley cars, with an elaborate underground system, designed and carried through by Americans, are making their appearance in London. The skyscraper and a thousand and one other American contrivances are fast becoming familiar the world over. Americans are accused by foreigners of being boastful. But haven't they a reasonable basis for all their boasts? They are hustlers, and the territory of the United States, vast as it is, is too limited for their efforts. They are waking up the world.

English ironworkers have just suffered another cut in wages, and they were getting far less than Americans before. No wonder many Englishmen are weary of the free trade principle.

If Aguinaldo had acknowledged earlier that his Uncle Sam was his greatest and best friend, he might have saved himself no end of annoyance as well as considerable shoe leather.

It's just as well we have no baseball team at present. They would soon be lost in the mud if they attempted to practice now.

The trouble with nine-tenths of the men who are waiting for an opportunity is that they don't know one when they see it.

Editor Bryan's paper is not a howling success as a party organ. His home town went Republican.

Lent is over and the umbrella jokes can be stored away for another season.

INSULTED AND KICKED

Colored Woman Said to Have Been Badly Treated on a Street Car.

According to a well known colored citizen, two colored women on a street car bound for Wellsville were grossly insulted Saturday evening. He says that Mrs. Minnis and her daughter Alice boarded a crowded car at the Diamond and were compelled to stand. Three drunken men were seated in the car and one of them said: "I would give my seat to a white woman, but not to a d— nigger," and even went so far as to kick Mrs. Minnis.

When Mrs. Minnis spoke to the conductor he is said to have promised to see what he could do and then dropped the matter.

Christening the Children.

An English parson of a church in Berbice, British Guiana, writes entertainingly of his pastoral duties. In the matter of christening the choice of name is left to the taste or fancy of the parents. This leads to strange combinations. He copies from his register "Nannie Bellona," "Trank Locust" and "Whisky Emmanuel." Of earlier times he tells the following:

One black man brought his child, and when the minister asked its name he said, "Seriatim ad Valorem."

On another occasion the parson asked, "What is the name of the child?"

The father said, "Ax, parson." The minister looked inquiringly at the man and said:

"But I don't understand you."

"Well, parson," said the man, "my mind giv' me to go troo de New Testament. I have had four boys. The first was named Matthew, the second Mark, the third Luke and the fourth John. Now, this, the fifth one, is to be Ax [Acts], parson."

HOW THE RED MEN ARE ROBBED

Paradise for Hunters and Fishermen.
The Natives Get the Fish Drunk

Large Families the Rule.

Ex-Senator W. V. Blake has written another interesting letter to a friend in this city, from Camp 16, Dawes commission, Wetumpka, Indian Territory. From it the News Review is permitted to make the following extracts:

"This township is more civilized, being thickly settled by white people from Arkansas, Missouri, Indiana, Pennsylvania and Ohio. Many of the settlers have married women of Indian blood, and they seem to be very intelligent and industrious people. The farmers and citizens are going to petition Postmaster General Smith to establish a postoffice in this district. The petitioners have named the place after an ex-senator from Ohio. Native modesty prevents me mentioning his name. Our next township—8, is a cuckoo—mountain, rocky ravines and dense thickets in the bottoms. Township 7 is a bird, also. As there are only five sections in 9 it will not take as long to appraise; 8 and 9 are on the banks of the Canadian river.

"I rode from camp to the Meander post on the bank of the river in Township 8 today. I stood on the sand dunes of the winding stream and gazed in amazement at the wild, weird, romantic and rugged scenery. On my returning to camp, on the trail through the woods, I saw a lot of young buck Indians shooting squirrel with bow and arrows. They are skilled in archery.

"The powers that be have released the members of the Snake band. They have promised to be good and accept their allotment of 160 acres per head. I know one Indian with 14 of a family, himself and wife making 16. Their allotment in the aggregate amounting to 2,560 acres of land. In the past, the redskin has been robbed, cheated and skinned by the white adventurer. The majority of Indians glide along in peaceful mediocrity, holding themselves on Easy street, as generations have done before them. The morality of the Greek is not of a very high standard. I have read that a people absorbed in the feverish race for subsistence, must be stunted and deformed. The Indian's soul, as well as his body, must be fed; his physical wants are, frequently, but the manifestations of moral defects and mental delinquencies. Nations prosper in the degree that they are morally strong. I think the half-breed is worse than the full-blood. When their allotments are made I think better conditions will result.

"Some of the Indians lease portions of their land for five years for \$1 on the condition that the tenant make certain improvements, fences, outbuildings, etc. Much land is rented at 25 cents per acre. Only cultivated land is to be paid for. For instance, a man may farm a quarter section out of a section, and on three-quarters of the section he may have 300 head of cattle grazing, but he only pays rent for land cultivated. Talk about lotteries! Grab bag and other genteel swindles are not in it with this system of fraud. Others give one-third of the corn and one-quarter of the cotton for land they farm. The woods are full of game, wild turkey, quail, grouse, deer, squirrel, rabbits, wildcats, wolves, coon and possum, the streams alive with fish, bass, perch, trout and catfish.

"The Indians have what they call fish killings. Gathering a weed called devil's shoestring, they bruise it in a wooden mortar, mixing extract of the root with water, then throw it in the streams. The fish get on a jamboree and come to the top of the water to perform their evolutions. They are an easy mark for the arrow of the Indian. Whenever the arrow flies you may count on a dead fish.

Tribute to Mildred Holland on Saturday Night.

Mildred Holland, as Aria, in "The Power Behind the Throne," made a great hit at the Grand Saturday night.

The leading role, which she played, was very difficult, but her rendition was superb. At the close of the third act Miss Holland was compelled to respond to four curtain calls.

The work of Leonard Walker, Frank Drew and Lillian Morris was excellent, and the entire cast deserves praise.

Perhaps the highest tribute to Miss Holland's popularity was shown in the exceptionally large audience that greeted her on the return engagement.

The rector then stated that he had seen Mr. Mayer personally, and had learned that the organ presented would probably cost about \$4,000 and would be built immediately.

The service closed with the holy communion. The afternoon exercises by the Sunday school children were worthy of comment, and the services in the evening were more elaborate than those of the morning.

INCREASED INTEREST.

Result of Evangelist's Work Appeared in the Large Attendance at U. P. Church.

In the First U. P. church the Easter services began with a sunrise prayer meeting led by Evangelist Kaylor. A large audience spent an hour in joyful worship.

The benefit of the special meetings of the past three weeks was seen, not only in the number added to the church, but in the increased attendance and deepened interest of the old members. The Sabbath school had the largest audience for the year, while more communicants sat together than in the history of the congregation.

A large audience, filling pews and chairs in the aisles, attended the evening services. They were not disappointed in the message they heard. Taking as his theme the character and life of Daniel, prime minister of Babylon, through so many dynasties, Mr. Kaylor showed that his success was the result of his courageous and upright conduct springing out of the principle upon which he acted as a young man when he "purposed in his heart that he would not defile himself with the king's meat." One lesson for young men was that it pays even for this life to be true and loyal to the right. Another was that God will interpose in behalf of those who are loyal to Him.

The evangelist, despite the arduous labors of the day, having addressed a large men's meeting in the afternoon, spoke with all his usual earnestness and power. The meetings will continue each evening during the week. On account of the meeting of presbytery, there will be no afternoon meetings until further notice.

MEANING OF EASTER

Address to Children By the Lutheran Pastor—Service of Confirmation.

St. John's Evangelical Lutheran church celebrated a glorious Easter day. The largest number in the history of the church partook of holy communion at the morning service. The rite of confirmation was most solemn and impressive. The sermon was full of deep thought and solid instruction. In the afternoon the Sunday school assembled in the auditorium, where after a song service, the pastor addressed the children on the significance of Easter.

Another large congregation gathered at the English evening service. While the processional was being sung by the congregation standing, the newly confirmed class of catechumens, headed by the pastor, marched into the church and took their places in front of the chancel. After liturgical service, the pastor spoke to the

class from the text, John 2:28. A point on which he dwelt specially was, "Let not the wisdom of the world shake your faith in the gospel of Jesus Christ. It has stood the test of ages, and will abide unto the Lord's coming." He exhorted them to a diligent use of the means of grace, the word of God and the holy sacrament, for they are the bulwarks of the church.

The decorations of the sanctuary were of a high order and a credit to the good taste of the committee that had charge. The music from both ancient and modern sources, beautifully rendered, added greatly to the edification of the worshipers. Twenty communicants were added to the church. The offering of the day amounted to \$70.

AT THE Y. M. C. A.

EVANGELIST KAYLOR'S IMPRESSIVE TALK TO WORKERS.

Reception to Be Held Thursday Evening—Bible Class Forming—Association Notes.

Evangelist A. H. Kaylor spoke to an audience of over 300 at the Y. M. C. A. hall yesterday afternoon, taking for his text "The Battle for Bread." His talk was earnest and was listened to with close attention. At the close fully 25 men rose, signifying a desire to lead a better life. Next Sunday afternoon Mr. Kaylor will speak to the monthly meeting of the board of filenent."

The monthly meeting of the board of directors was held Friday evening. Encouraging reports were presented. The board voted to ask the ladies' auxiliary to cooperate and to tender a reception to the general secretary and his assistant on Thursday evening next. It was decided to extend a cordial invitation to all friends of the association to come on that evening.

Tomorrow evening at 8 o'clock Mr. Wright will inaugurate a class for Bible study, which will meet weekly, in the association parlors.

Sunday afternoon next at 2:30 p. m. there will be a boys' gospel meeting in the association hall. The plan is to form a boys' society.

IN OTHER CHURCHES.

Elaborate Musical Programs And Eloquent Discourses.

The Easter services in all the city churches were excellent and attracted unusually large congregations.

The First Presbyterian church presented a choice musical program, which was carried out in full in a manner that called forth much praise. Pastor Jordan preached two eloquent and impressive sermons.

At the First M. E. church there was special Easter music and excellent sermons by Rev. Dr. Clark Crawford.

Pastor Gladden, of the First M. P. church, in the morning preached on "The Risen Savior," and in the evening delivered a most impressive sermon. The musical program at both services was elaborate and finely rendered. There were 413 in attendance at the Sunday school. An orchestra of 10 pieces furnished excellent music.

SIMPLE YET IMPRESSIVE.

Easter Services at the Second Presbyterian Church.

Easter was observed in the Second Presbyterian church in a simple but impressive manner. Rev. J. P. Leyenberger, pastor of the Island Creek Presbyterian church, being in charge of the services and preaching morning and evening. His morning sermon was in keeping with the thought of the day: "Weeping may endure for a night, but joy cometh in the morning." He spoke of the accomplishments of God's people, notwithstanding their trials, when trusting imple-

itly upon the power of God to deliver. During a certain period the people of Israel were sorely perplexed. Destruction apparently awaited them at the hands of the Syrian army, but while the people were in tears, the King Hezekiah and the Prophet Isaiah were on their knees imploring the only aid possible, and God heard and delivered, and after the night of weeping joy came in the morning.

After the burial of Christ Mary Magdalene was first at the tomb. She was weeping, as she supposed they had borne her Lord away and she knew not where they had laid him. Then Jesus appeared to her and spoke her name so tenderly, "Mary." Joy unspeakable came to her on that first Easter morning, and the church throughout Christendom has ever since been echoing and re-echoing the glad refrain, "the Lord is risen indeed."

Reminiscence of a Thespian.

At Brighton Beach I hit Mose Rosenstein, who was organizing a one night "Faust" company, for a job.

"What part do you wish to take?" he inquired shortly.

"I wish to take the place of Mephistopheles, of course," I answered, drawing myself up proudly, for I had on a new suit of clothes and could afford to look him in the face.

"And why do you wish to take that particular part?" he inquired.

I was amazed at his dullness; but, concealing my disgust as far as possible, I explained that it was because the devil always gets his dues. He seemed pleased at my repartee, wrote me out a \$500 per week contract and paid me my first week's salary of \$7.50 in advance. I played the devil in "Faust" until nearly the end of the season, after which I was cast in "The Foundry," a workman's play.—Indianapolis Sun.

Her Criticism.

Mary is very stout, quite deaf and the trusted housemaid of a family in the East park section. Incidentally she seems to be something of an art critic. When she cleans the family rooms, she is heard to mutter and shake her head in dusting the pictures, and she seems to be especially severe on a few representatives of the "altogether" that hang in the little den. One day Mary was flitting her dustcloth about in this little room when her mistress happened in. Mary was standing gazing intently at a beautiful photograph of Bouguereau's "Cupid and Psyche."

"And phwat pictur' is that?" asked Mary in hard, cold tones.

"Oh, that is 'Cupid and Psyche,'" said the lady rather indifferently.

"Moody and Sankey, is it? Well, I hav' heered of them felleys. Sure, they ought to be ashamed of themselves."—Philadelphia Record.

How He Got Religion.

"Did you ever get religion?" asked the revivalist.

"Well, I should say so—138 pounds of it," replied the man.

"A hundred and thirty-eight pounds of religion!" cried the revivalist. "How did you get that?"

"The only way that a good many men ever get religion," was the reply; "I married it."—Chicago Post.

A HITCH NOT LIKELY

Rockhill Saw Li and Arranged For
a Settlement With the
Powers.

CHINA AGREES TO PENALTIES

Ministers, at China's Request, Agreed
to Have a Sentence of Banishment
Placed Upon an Aged Official, Com-
muted to Deprivation of Office.

Peking, April 8.—Mr. Rockhill, United States special commissioner in Peking, had a long interview with Li Hung Chang, who satisfied him that there was not likely to be any further important hitch in the negotiations for a settlement between China and the powers. China has agreed to the list of punishments submitted by the ministers of the powers, asking only one concession, namely, deprivation of office, instead of banishment, in the case of a man who is 70 years of age. To this the ministers agreed. Li Hung Chang said the court is extremely anxious to return to Peking as soon as the foreign troops evacuate the capital.

Some of the ministers of the powers began to think that so large a force as 2,000 troops acting as legation guards in the city proper would

CAPTAIN HERBERT G. SQUIERS.

be a great mistake. Such a body would have to remain in a space of one square mile. The troops could not be allowed outside the legation quarters armed, and it would probably not be safe for them to go unarmed.

It was thought by some of the ministers that if the encampment were made from 12 to 15 miles away, with the necessary stores, this arrangement would be much preferable, as a telegram could bring the troops into the city immediately.

Moreover, several ministers were insulted by troops of other nations. Mr. Rockhill and Sir Ernest Mason Satow, the British minister, were returning from dinner in Sedan chairs when the chairs were stopped by German soldiers, who proceeded to beat the bearers. The ladies of the party were greatly frightened.

The ministers almost generally feared that the presence in Peking of a considerable force of troops of various nationalities might be a source of international friction.

They were not entirely pleased with the military proposals of the generals, as they failed to see the necessity for the demolition of all forts.

Washington, April 8.—The administration was perplexed over a cable dispatch received Saturday from Mr. Squiers, now in charge of the American legation in Peking. This dispatch according to a publication Sunday said that the Russian minister refuses to receive official communications from Chinese commissioners, which carried the inference that diplomatic relations between the two countries interested would be broken off. The officials were very reticent about the matter and declined to affirm or deny whether it is correctly stated. They went far enough to admit the receipt of a dispatch, whose purport was not clearly understood, for which reason it was not given to the press for publication. Another cablegram which reached here Sunday from Mr. Rockhill, the special commissioner of the United States engaged in conducting the peace negotiations, made no reference to the alleged refusal of the Russians to receive official communications from the Chinese commissioners. As Mr. Rockhill is in a position to know promptly what develops between the ministers and the peace commissioners, it is believed he would be prompt to report a step of such far-reaching importance as the published dispatch from Mr. Squiers would indicate. At the Russian embassy no information on the subject was obtainable last night. It was said there that no communications had come from the foreign office at St. Petersburg since the Russian note of several days since, which declared that government's intentions regarding Manchuria, a copy of which was handed to Secretary

May. The impression of the officials at the embassy was that no special significance attached to the Squiers dispatch. According to them it simply meant that the Russians had discontinued further negotiations at this time on the Manchurian question alone, which for the time is held in abeyance. This was in accord with the spirit of the official publications of the government on this matter, which asserted that remaining faithful to its original and out-repeated political program regarding Manchuria, "it will quietly await the further course of events."

London, April 8.—The Yokohama correspondent of The Daily Mail, wiring yesterday and dealing with the attitude of Japan toward Russia's Chinese policy, says:

"Shipping companies have been ordered to hold their vessels in readiness for transport service. Cruisers on the reserve list have been commissioned for active service. All leave has been recalled, and officers of the first reserve have been warned for service. There is much popular excitement."

Washington, April 8.—"All the war-like news," said Mr. M. Komatz, secretary of the Japanese legation, in an interview which was expected to be published in the Washington Post today, "which have been sent out from Japan by foreign correspondents to London and thence transmitted to this country, are more or less exaggerated, and some of them utterly groundless. For instance, nothing can be more false than the report which appeared on Saturday to the effect that Japan addressed to Russia a note, which almost amounted to an ultimatum. Now that China has refused to sign the Manchurian convention, and Russia has decided not to insist upon its conclusion, I am quite at a loss to find out what has given rise to such preposterous reports."

"It is very likely that the Japanese minister at St. Petersburg should have given Russia verbal advice that the latter would better submit the convention to the international conference at Peking, and there is no reason why Russia would refrain from doing so, if the convention contained nothing, as has been declared by Russia herself, which was detrimental to the integrity of China or injurious to the interests of the powers concerned. Japan is ready to approve or support any proposition, no matter whatever state makes it, provided it is just and proper. All that Japan wants in international transactions is 'fair play,' and nothing more, but nothing less. It is believed that the Peking negotiations will proceed in perfect harmony, uninterrupted by the incident caused by the Manchurian convention, which now seems to have been fairly settled."

RECORDERS APPOINTED

Gov. Stone Named Brown For Pittsburg and Murphy For Allegheny City.

Harrisburg, April 8.—Major A. M. Brown was Saturday appointed recorder of Pittsburg and John R. Murphy of Allegheny. The announcement was made by Governor Stone. The decision which resulted in these appointments was made after a conference at the executive mansion. At this conference were the governor, Senator Penrose, Attorney General J. P. Elkin, Director J. O. Brown, City Attorney Clarence Burleigh and Judge Elliott Rodgers, of Pittsburg.

W. B. Rodgers, author of the new charter, in the course of an interview published Sunday, said: "The appointment is an excellent one. The position was offered to Mr. Thomas S. Bigelow. Within a week it was again offered, but upon conditions inconsistent with the proper exercise Bigelow declined it."

During the course of an interview, the attention of Major Brown was called to the fact that it had been asserted his appointment was made without the governor having any consultation with Senator Quay. On this subject he said:

"I do not know from Senator Quay that my candidacy was desired by him, but from the fact that persons in close touch with him came to see me I certainly had reason to believe so. I consider it extremely improbable that the governor would make the appointment without consulting him. Furthermore I today received the assurance of one who has all along been well posted on the events at Harrisburg that the appointment was not tendered to Mr. Bigelow. No doubt is entertained that his name was considered in connection with it, and that he stood a very good chance of being appointed, but that the appointment was ever actually offered him is denied."

"Has any intimation been conveyed to you," was asked, "that Governor Stone expects to control the appointments under you, if you accept this position?"

"There has not been the least intimation of a desire on his part to control any official act of mine whatever. And I can say that he will not control if I accept. Of course advice offered by the governor in a friendly spirit would be received in the same spirit and given consideration for what it is worth, the same as if it came from any other man of such standing and experience as to entitle him to a hearing. But if I take that position it will be to discharge its duties according to what judgment and conscience shall show me to be right. And I do not believe there is any desire on the part of the governor to have me do otherwise."

JONES' STORY FALSE

Patrick Declares the Confession of the Rice Murder Is Untrue.

CALLS IT A FAIRY TALE

Said It Was Result of Collaboration Between Jones, Witthaus, Baker, Battle and Osborne—Scheme to Hold Him During Will Litigation.

New York, April 8.—Lawyer Albert T. Patrick, who is charged with the murder of Millionaire William Marsh Rice, made a statement last night concerning the case. He had been asked to say something concerning a story printed in a morning paper to the effect that ex-Valet Jones had spent several hours, accompanied by a policeman attached to the district attorney's office, in touring the Tenderloin district. According to this story, hotels, concert halls and gardens and theaters had been visited by the prisoner and his attendant and dozens of drinks taken. On this point lawyer Patrick said:

"I have known that this kind of thing has been going on for several weeks. I could not have sworn that such was the case, but I have heard from various sources that Jones was plentifully supplied with money, was taken out buggy-riding and was otherwise treated with great kindness and consideration."

Patrick went on to speak of the Rice murder case. He said in part: "Jones never killed W. M. Rice. Had he done so he never would have testified to it, especially as the district attorney has promised him no immunity, nor would his counsel, even though provided by Captain Baker, have permitted him to do so. His confidence is due to the fact that W. M. Rice, at the age of 84, died of heart failure, as did his brother, F. A. Rice, yesterday, at the age of 70, and there will never be any proof otherwise. The only crime of which Jones is guilty is that of conspiring against the 1900 will and that of perjury in the present proceedings. His fairy story is the result of a collaboration with Captain James A. Baker, Jones' lawyer; Mr. Battle, who is hired by Baker; Assistant District Attorney Osborne and Prof. Witthaus, the professional expert, whose report Osborne for the last six months has been expecting in a few days, and who swore that Rice died of mercurial poisoning, if he did not die of something else."

"The object of Jones' story is to have me held in prison pending the will litigation."

"It would take but little corroboration to convict Jones upon his own confession, but it would take a great deal to convict me upon Jones' accusations. If I am held or indicted for murder, Jones will certainly be also, and I would surely be acquitted, but in his effort to have himself corroborated he might be convicted, innocent though he is, and then he would surely be electrocuted, for no hand could save him."

"Jones is staking his life upon the ability of the handwriting experts to discredit Rice's signature, which Jones saw him write and which he shows by his numerous statements and uncertain testimony that he knows Rice signed."

"Jones may rest assured that those for whom he has outlawed himself from mankind will abandon him when they can no longer use him."

"As to my own position I can only say that I will be vindicated and will be able to discharge all duties devolving upon and maintain all rights belonging to me, all of which, however, is in the hands of my able and conservative attorneys."

"Of personal revenge I have no thought, but if I am ever convinced that W. M. Rice was murdered I shall do my utmost to convict all implicated, in which event I am sure I can prove the motive to the alleged will of 1896 and the instigators to be persons striving to uphold it, and prove that Jones did the deed believing that he could thus prevent the consummation of Mr. Rice's plans through me."

District Attorney Philbin was asked Sunday what he knew of Jones' alleged tour of the tenderloin. He replied that he knew nothing whatever except what he had read.

"Have you at any time given permission for him to absent himself from the house of detention except when he was in attendance at court?"

"I have not," he replied.

Assistant District Attorney Osborne last night said that he was aware of Jones' trip through the tenderloin Friday night and that it was taken for the purpose of locating witnesses to testify in the Rice case. He added that six witnesses were wanted and that one had been located by means of this trip.

APPOMATTOX DAY

An Especial Effort Being Made This Year to Make the Affair a Successful One.

The thirty-sixth anniversary of the surrender of General Lee at Appomattox Court House, which practically ended the Civil war, will be commemorated by General Lyon Post, G. A. R., on Tuesday evening, April 9.

Each year since the institution of the local Grand Army post in January, 1881, the event has been celebrated in various ways, and has continued through the years that have passed to be an occasion to be looked forward to with pleasure by the residents of the city.

At the beginning the entertainment was held in the post room, but it was soon found that the quarters were inadequate to accommodate the large crowds. It was then taken to the old Fifth street rink, where for many years the occasion grew in favor until even this capacious hall was scarcely large enough to allow the immense crowds to thoroughly enjoy themselves.

Since the removal of the old rink, Appomattox day has been celebrated in the post rooms on Fifth street, and this year the organization is determined to make it the most successful in recent years. They have been promised and will receive the support and assistance of the Woman's Relief Corps and the Sons of Veterans.

Attention, G. A. R.

General Lyon Post, with the W. R. C. and the S. of V., will celebrate Appomattox's day at Grand Army hall, Exchange building, on Tuesday evening, April 9, by their annual bean bake. Supper will be served from 5:30 to 8:30 p. m. The menu will consist of baked beans, roast pork, roast veal, mashed potatoes, hot coffee, etc.

After supper there will be a musical and literary entertainment consisting of solos, songs, recitations and short speeches by comrades and others. All are invited. Proceeds for the benefit of relief fund.

Admission to the hall, 10 cents.
Supper, 25 cents. 253-h

Whether Professor R. L. Garner, who is now in Africa, has perished in the jungle or not cannot be definitely known, for he is far beyond the outposts of civilization. Chiefs of Brotherhoods Were Unable to Settle With New Jersey Central.

New York, April 8.—In the opinion of a good many people a strike is imminent on the Central Railroad of New Jersey system. This opinion is based on the fact that Chief P. M. Arthur, of the Brotherhood of Locomotive Engineers, left the city last night for his home in Cleveland, and Chief Frank P. Sargent, of the Brotherhood of Locomotive Firemen, was preparing to leave the city also. Added to this was a statement by E. E. Clark, chief of the Brotherhood of Conductors, who said that he certainly would sanction any action his men, meaning the conductors of the road, might see fit to take.

The chiefs of the brotherhoods professed to feel angry at their failure to bring about negotiations with Vice President Warren, of the railroad, concerning the points of difference between the company and its employees.

Child Was Murdered.

Butte, Mont., April 8.—Medical examination of the body of 9-year-old Evelyn Blowitt, whose body was nearly consumed by the fire on Saturday in the cabin of John Warne, the aged watchman at the Walkerville reservoir, was made. It demonstrated beyond doubt that the child had been murdered. The back of the head was crushed in as by a blow from a hammer and the neck broken. Warne is in Anaconda, having been taken there Saturday night when word reached the jail that a mob was forming at Walkerville to lynch him.

Tiller Was Recaptured.

Chicago, April 8.—Prentice Tiller and G. H. Grant, alias A. B. Chase, alias C. Martin, who were recently arrested in Nebraska, and who were wanted by the federal authorities in Cincinnati and other cities for robbing the United States mails, made a sensational dash for liberty in the Union station last evening. Grant made his escape from the officer who had the two men in charge and is still at large. Tiller was captured.

Clay Was Holding the Fort.

Lexington, April 8.—General Cassius M. Clay was still holding the fort alone and no one was admitted to Whitehall except James Bolin, his bodyguard. General Clay intimated Saturday that he would live on a supply of meat and canned goods that he had stored away, but he changed his mind Sunday morning and ordered Bolin, who lives about a hundred yards from the mansion, to have his wife prepare his meals.

Minister Read His Resignation.

New York, April 8.—The Rev. Chauncey W. Goodrich, pastor of the Presbyterian church at St. Cloud, West Orange, N. J., Sunday read his resignation from the pulpit of that church. Mr. Goodrich accepted a call to the Bolton Street Presbyterian church, of Cleveland.

How Niagara Wears the Rock.

All who have been to Niagara know that the cataract is divided by Goat island, the larger portion of the fall being on the Canadian side of the river. This part is known as the Horseshoe fall and was so named because years ago it was identical with a horseshoe in shape. A few years ago a V shaped break occurred toward the New York side, and since then other changes have taken place, until today the Horseshoe fall is more like its original form, but clearly shows the effects of the wearing of the waters.

Many people fail to see how the falls wear the rock away, and this is a little mystery until the exact conditions are realized. The ledge of rock over which the water of both the American and Horseshoe falls flows is of hard limestone. It is all of 60 feet thick and naturally very heavy. Underneath this ledge of limestone there are the shales of the Niagara locality. This soft rock is many feet thick. The rock of the Horseshoe fall is unprotected, and as the water falls over the precipice and boils in the river below it washes away the soft shale beneath the limestone, so that the limestone is left in shell-like form, projecting far out into the gorge. Observant visitors to the falls have no doubt noticed this condition.

In the course of time the shale foundation of the limestone ledge is excavated to such a point that the unsupported ledge breaks away by its own weight, and the crest line of the Horseshoe fall recedes so much farther. Then the water attacks the newly exposed shale, and in time the process outlined is repeated. This has been going on for centuries, and it will continue until the falls of Niagara are no more.—Philadelphia Record.

The Preacher Was Glad She Swore.

The daughter of a well known clergyman in Washington had a severe attack of scarlet fever when she was 3 years old which resulted in deafness. Up to that time she had been a regular little chatterbox, doing her infantile best to carry out the proverbial:

Being a woman, she'll talk forever!

Upon her recovery her parents were nearly heartbroken to find that she had not only lost her hearing, but the power of speech as well. Whether she had really forgotten how to talk or whether it was obstinacy or lack of confidence they could not determine, but despite all efforts of the best tutors the child remained a mute.

One day, when she was nearly 10 years of age she was playing with a cat, and with as much cruelty as though she were of the sterner sex she used its tail as a handle with which to pick it up. The poor animal, not appreciating the economic use of the aforesaid tail, inflicted a deep scratch across the chubby little hand.

"Damn that cat!" she said, flinging it down.

And her father, devout clergyman as he was, clasped his hands and, raising his eyes to heaven, exclaimed:

"Thank God, that child has spoken at last!"—Detroit Free Press.

THE DEADLY COBRA.

How Venomous Creature Is Handled by Hindoo Snake Charmers.

The creatures were on the defensive, but not one of them attempted to strike at the master, who sat serenely in front of them, so long as he did nothing to annoy them. Kullian talked to them as if they were his dearest friends. After a time one of the other of them would lower its head, collapse its hood and begin to try to wriggle away. Whereupon Kullian would give it a smart little rap on the tail with his stick and bring it instantly to attention again. Whether this man possessed any special magic over these cobras or whether the description given below of how he could handle and play with them was simply due to his method I cannot say. He himself repudiated the idea of magic and asserted positively that any one who had the necessary nerve and dexterity could do exactly the same.

He used no reed instrument or music of any kind to propitiate the reptiles. He would simply squat on his haunches in front of them, and, after they had been hissing and swaying their uplifted heads backward and forward for a few minutes, he raised his hands above their heads and slowly made them descend till they rested on the snakes' heads. He then stroked them gently, speaking all the time in

the most endearing Hindoostanee terms. The serpents appeared spell-bound. They made no effort to resent the liberty, but remained quite still with heads uplifted, and seemed rather to enjoy it. Presently his hands would descend down the necks about three inches below the heads, his fingers would close loosely around the necks, and he would lift them off the ground and place them on his shoulders. The looseness of the grip appeared to be the main secret. The snakes, being in no way hurt, would then slowly crawl through his fingers and wind themselves round his neck, his shoulders and his arms. They appeared to realize that no harm was to be done them, and they made no effort to resent the handling. He would pick them gently off one arm and place them on the other and, in fact, stroke them and pet them as if they had been a pair of harmless worms.—Cornhill.
